10-unit freestanding mailbox system Design BASIC 385 ST-R - RAL 7016 anthracite grey | RAL 7016 Anthracite grey, fine texture, matt | 300x110x385 mm (WxHxD) - ?? Normal 12 litres | with 10 mailboxes

Product number 385-7016-10W

Product description

Freestanding 10-unit mailbox system BASIC 385 for 10 households – wide, multi-column configuration – RAL 7016 Anthracite grey

The freestanding BASIC 385 mailbox system for 10 households combines a robust construction with a clear, functional design. It is suitable for multi-family homes, residential complexes and commercial properties and can be positioned independently of the building façade at the property entrance, by a driveway or along the access path.

The W configuration distributes the mailboxes across a wider, multi-column arrangement and creates a clear front for multiple users.

The mailboxes are made of galvanised steel and are powder-coated in RAL 7016 Anthracite grey with a fine-textured matt finish. A close-fitting side cladding with a rain hood unifies the individual mailboxes into a single, enclosed system.

Each compartment has an insertion aperture of 35 × 265 mm for DIN C4 items in portrait format. A noise-damping rubber lip reduces impact noise, while the front access doors open from left to right. Each mailbox is supplied with two keys bearing a key number and an interchangeable nameplate beneath the insertion flap.

The advantages of the BASIC 385 at a glance

Solid stainless-steel support posts

Round-tube support posts of approximately 60 mm diameter made from brushed stainless steel V2A 1.4301 provide a stable base for the freestanding mailbox system. The robust construction is designed for long-term use at the property entrance.

Large mail slot compliant with DIN EN 13724

The insertion aperture of 35 × 265 mm is designed for DIN C4 items in portrait format. Larger envelopes can also be inserted without folding.

Quiet insertion and convenient retrieval

A noise-damping rubber lip reduces the slamming of the insertion flaps. Mail is retrieved from the front via doors that open from left to right.

Durable RAL 7016 finish

The matt fine-textured surface in Anthracite grey combines a modern appearance with a resilient coating on the galvanised steel.

Proven BASIC quality — Made in Germany

The combination of solid material selection, DIN EN 13724-compliant compartments and an installation-friendly construction makes the BASIC 385 a durable solution for everyday use.

Equipment of the BASIC 385 mailbox system

Mailbox system

Configuration Wide, multi-column configuration
Number of mailboxes 10 separately usable compartments
Mailbox material Galvanised steel
Finish RAL 7016 Anthracite grey fine-textured matt
Rain hood / side cladding Galvanised steel, powder-coated in RAL 7016 Anthracite grey fine-textured matt
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Mail and operation

Mail slot 35 × 265 mm, suitable for DIN C4 portrait
Insertion flaps With noise-damping rubber lip
Mail retrieval From the front
Door opening From left to right
Keys 2 keys with key number per mailbox
Nameplate Interchangeable nameplate beneath the insertion flap
Standard Mailboxes conforming to DIN EN 13724

Support posts and features

Support posts Round tube approx. 60 mm from stainless steel V2A 1.4301, brushed
Installation types Optional for bolt-on installation or for concreting in
Fixings Anchor bolts for bolt-on installation not included; select suitable anchors for the foundation separately

Mailbox size and volume

The BASIC 385 is available with different mailbox sizes depending on the product configuration. The standard version 300 × 110 × 385 mm offers approx. 12 litres of volume; depending on the variant, 300 × 220 × 385 mm with approx. 25 litres of volume is also available.

Installation by concreting in

For the freestanding system we recommend a sufficiently dimensioned concrete foundation. When concreting in, the stainless-steel support posts must be set plumb and permanently anchored in the foundation. Foundation size and embedment depth should be matched to the ground conditions, system weight and local circumstances.

Bolt-on installation on a foundation

For bolt-on installation a level and load-bearing concrete foundation is required. Suitable anchor bolts or fixings should be chosen according to the subsoil and the load on the system. For the BASIC-385-ST-R versions, anchor bolts are not included in the standard scope of delivery.

Note on weather protection

Mail items are best protected from moisture and dirt when fully inserted and with the insertion flap closed. Protruding items can prevent the flap from closing fully. In extreme weather conditions, moisture may enter the mailbox despite compliant construction.

Product properties

Material	Steel, galvanised, Stainless steel V2A 1.4301
Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), Brushed, RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Mounting type	Free-standing
Removal of mail	On the front
Number of boxes	with 10 letterboxes
