Design flush-mounted XXL parcel box GOETHE - airlock system - RAL colour of your choice | Parcel compartment 600x1200x400

Product number 215-UP-PK-600

Product description

Design recessed parcel box GOETHE - airlock system - RAL colour of your choice

Parcel delivery has changed significantly in recent years – today customers expect more flexibility and security than ever before. With the recessed parcel letterbox GOETHE from Briefkasten Manufaktur you rely on an optimal combination of innovative technology and outstanding design, crafted from high-quality stainless steel and aluminium.

The recessed parcel box GOETHE features a specially designed delivery airlock. Once the courier places your parcel inside and the airlock closes, the parcel automatically drops into the locked collection compartment below. The delivery airlock is immediately ready for further deliveries after this process and is independently isolated from the collection compartment, guaranteeing the highest level of security for your parcels. A parcel box for easy receipt of parcels, carrier-independent parcel acceptance! Any parcel courier (e.g. DHL, DPD, TNT, GLS, Hermes, etc.) can use this parcel box. The spacious interior of the GOETHE parcel box is designed to accommodate the DHL Paket M and even several smaller parcels. Depending on the placement of the DHL parcel of size M, up to four such parcels can even be stored safely and conveniently. In addition, the insertion of letters, magazines and catalogues is also no problem (no compartment separation possible!).

Briefkasten Manufaktur places particular emphasis on the selection of high-quality materials. The use of stainless steel in the manufacture of the GOETHE parcel box ensures extremely high corrosion resistance and a strikingly attractive surface finish. Our quality assurance begins with the selection of our raw material suppliers and only ends when the parcel box arrives with you in the required quality. Trust the GOETHE parcel box for a secure, flexible and stylish solution to your parcel delivery needs. Be convinced by a product that combines traditional craftsmanship with state-of-the-art technology – entirely in the spirit of Briefkasten Manufaktur.

Protected utility model according to DPMA file reference DE: 20 2021 101 679.5

- Innovative push-key lock with 2 keys.
- Retrieval door opens from top to bottom.
- Optimal protection from rain through drip edges and a rain canopy made of 3 mm aluminium AlMg3 W19, powder-coated in RAL colour of your choice.
- Plaster cover frame made from stainless steel angle profile 25 x 58 mm, powder-coated in RAL colour.

Important information

Water protection

To achieve optimal water protection for your mail, the mailbox or mailbox system should, if possible, be located under an overhang.

Postal items are only protected from water if they are placed completely inside the box and the insert flap is closed. Mail that is not fully pushed in allows moisture and dirt to enter the mailbox. This system is protected against water ingress according to DIN EN 13724. Water ingress does not constitute grounds for a complaint.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
