**Product number** 215-UP-E2-100

## Product description

## Recessed mailbox GOETHE UP - Design Elegance 2 - RAL colour of your choice

The modern recessed mailbox GOETHE with interchangeable stainless-steel appliqué is ideal for the sophisticated entrance area. The clean-lined shape without a visible lock gives this mailbox an especially elegant appearance. The contemporary look with a stainless-steel front panel fits perfectly with many of the latest generation front-door models.

The dimensions of the single box allow a capacity of approx. 16 or 32 litres; the large mail slot guarantees no creased post even for DIN C4 envelopes and magazines or after several days' absence. The innovative Push-Key lock is concealed inside the mailbox. The key is simply inserted into the existing opening (no turning required) and the door opens. With the lock positioned as it is, the collection door is designed to prevent your mail from falling out towards you. Thanks to the water-drip edge, the internal mail is well protected from the weather. The insertion flap is fitted with high-quality hinge dampers, ensuring quiet closing and preventing annoying rattling caused by weather influences.

The mailbox systems of the GOETHE collection are characterised by the consistent use of stainless steel. The result is very high durability and sustainability. The construction has been developed by our own engineers with a focus on high flexibility and modularity, easy spare-part assembly and straightforward self-installation. Spare parts for all GOETHE systems are available directly in our shop.

Thanks to the design, self-installation is uncomplicated.

**Important information:**

To achieve optimal protection of your mail from water, the mailbox or mailbox system should, where possible, be located under a canopy.

Mail is only protected from water when it is fully deposited inside the box and the insertion flap is closed. Partially inserted mail allows the ingress of moisture and dirt into the mailbox. This unit is protected against ingress of water in accordance with DIN EN 13724. Water ingress is not a valid reason for complaint.
