Product description

Letterbox BRENTANO® with newspaper compartment - Design Elegance 3 - RAL 7016 anthracite grey

The BRENTANO® letterbox with invisible lock and narrow stainless-steel trim including name inscription in grey combines modern design with first-class functionality. Manufactured from high-quality materials and powder-coated, it not only serves as a stylish design element for your home but also impresses with its durability. The clean lines and careful workmanship make the BRENTANO® letterbox the ideal choice for the highest design standards. Thanks to its robust construction it is particularly weather-resistant and guarantees reliable protection for your mail. Perfect for anyone who values a harmonious balance of design and function.

The generous dimensions of the BRENTANO® design letterbox provide a capacity of approx. 20 litres, allowing larger items such as C4 envelopes or magazines to be received without creasing – even after several days away. Top entry ensures comfortable handling. In addition, the letterbox is equipped with dampers that ensure the insertion flap closes gently and silently. The innovative Push-Key lock, concealed inside, allows opening without turning the key – simply insert the key into the opening and the door opens effortlessly. The clever arrangement of the lock and access door prevents your mail from falling out when opened. Made from stainless steel as well as galvanised steel and additionally powder-coated, this letterbox is particularly durable and of high-quality workmanship.

The unique one-handed operation concept with the Push-Key lock, available exclusively from Briefkasten Manufaktur Lippe, enables particularly easy handling: with only one hand you can open the letterbox, remove the mail and close it again. Protected by a utility model (DPMA file number DE: 20 2021 101 679.5), this innovation offers real added value.

Thanks to the design, self-installation is straightforward.

Important information:

To achieve optimal protection of your mail from water, the letterbox or letterbox system should, if possible, be installed under a canopy or porch.

Mail items are only protected from water if they are placed completely inside the box and the insertion flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the letterbox. This unit is protected against water ingress according to DIN EN 13724. Water ingress is not grounds for a complaint.
