Design flush-mounted newspaper box GOETHE UP - RAL colour of your choice

Product number 215-ZFUP

Product description

Designer recessed newspaper box GOETHE UP - RAL colour of your choice

The modern recessed newspaper box GOETHE is ideal for a sophisticated entrance area. Its clean, linear design gives this newspaper box a particularly elegant appearance.

This newspaper box is especially convenient because the newspaper can be placed in completely. This protects the newspaper from the weather and allows it to be placed without creasing. The internal post is optimally protected from the weather by the water drainage edge. The insertion flap is equipped with a high-quality soft-close damper, ensuring quiet closing. For removal, the flap is simply opened upwards and the newspaper can be removed easily.

The mailbox systems of the GOETHE collection are characterised by the consistent use of stainless steel. The result is very high durability and sustainability. The construction has been developed by our own engineers with a view to high flexibility and modularity, easy spare-part assembly and straightforward self-assembly. Spare parts for all GOETHE systems are available directly in our shop.

Thanks to the design, self-assembly is uncomplicated.

Protected utility model according to DPMA file number DE: 20 2021 101 679.5

- Newspaper box entirely made of stainless steel.
- Quality manufacturing - Made in Germany by Briefkasten Manufaktur Lippe.
- Newspaper box (BH 400x200mm) made of stainless steel 1.4016 (corrosion-resistant magnetic stainless steel), powder-coated in a RAL colour of your choice with stainless steel laser inscription "NEWSPAPER".

Important information:

To achieve optimal water protection for your post, the mailbox or mailbox system should, where possible, be located under an overhang.

Mail is only protected from water if it is placed completely inside the box and the insertion flap is closed. Partially inserted mail allows moisture and dirt to enter the mailbox. This unit is protected against water ingress according to DIN EN 13724. Water ingress does not constitute grounds for complaint.
