Designer surface-mounted letterbox GOETHE AP with newspaper compartment - RAL colour of your choice - prepared for LOXONE Intercom/Code Touch | with newspaper compartment | 200mm depth | Prepared for a 1x1 LOXONE Intercom

Product number 215-AP-1-SP-ZF-LOX1-LOX1-200

Product description

Design surface-mounted mailbox GOETHE® AP with newspaper compartment - RAL colour of your choice - prepared for LOXONE Intercom

High-quality manufactured surface-mounted mailbox with newspaper compartment in a flush-front design. The modern GOETHE® mailbox is ideal for the sophisticated entrance area. The clean-lined shape without a visible lock gives this mailbox an especially elegant appearance. The LOXONE Intercom can be seamlessly integrated into the flush-front design and exchanged at any time. The preparation is provided for 1 piece LOXONE Intercom (incl. opening for sound emission) or 1 piece LOXONE Intercom (incl. opening for sound emission) + 1 piece LOXONE NFC Code Touch/Touch Pure.

The dimensions of the single box allow a capacity of approx. 16 litres; the large slot guarantees that DIN C4 envelopes and magazines, or post accumulated during several days' absence, are not crumpled. The innovative push-key lock is hidden unobtrusively inside the mailbox. The key is simply inserted into the existing opening (no turning required) and the door opens. With the position of the lock, this mailbox is designed so that the collection door prevents the post from falling towards you. Thanks to the water run-off edge, the internal post is optimally protected from the weather. The insertion flap is equipped with high-quality axle dampers, ensuring a quiet closing and preventing annoying rattling caused by weather influences.

The surface-mounted mailbox systems of the GOETHE® collection are characterised by the consistent use of stainless steel and aluminium. The result is very high durability and sustainability. The construction has been developed by our own engineers with regard to high flexibility and modularity, simple spare-part assembly and uncomplicated self-installation. Spare parts for all GOETHE® systems are available directly in our shop.

Thanks to the design, self-installation is straightforward.

Protected utility model according to DPMA file number DE: 20 2021 101 679.5

- Side cladding made of 3 mm aluminium AlMg3 W19, powder-coated in RAL colour of your choice.
- Incl. mounting rail for wall installation.
- **WITHOUT LOXONE Intercom/System components!**

Important information

Camera or intercom station preparation

We always recommend that the electrical installation be carried out by a qualified electrician.

We offer preparations for intercom stations from various manufacturers for our mailboxes. The preparation does not include end devices; it consists of providing the screw mounts, drillings & openings so that you can mount your end device without difficulty.

Water protection

To achieve optimal water protection for your post, the mailbox or mailbox system should, if possible, be located under a canopy.

Mail items are only protected from water when they are placed fully inside the box and the insertion flap is closed. Post that is not fully inserted allows moisture and dirt to enter the mailbox. This system is protected against water ingress according to DIN EN 13724. Water ingress does not constitute grounds for complaint.
