2-compartment stainless steel freestanding mailbox Design BASIC Plus 385X ST-R - 220 mm - RAL colour of your choice | ? Colour of your choice | 300x220x385 mm (WxHxD) - ???? Large 25 litres | with 2 letterboxes (1x2)

Product number 385XR220-2

Product description

Large-capacity freestanding mailbox system BASIC Plus 385X ST-R for 2 households – 25 litres, colour of choice

The BASIC Plus 385X ST-R freestanding mailbox system for 2 households is a high-quality standalone solution for smaller apartment buildings, houses with a self-contained flat, as well as office and medical practice premises. The balanced multi-occupant arrangement uses width and height efficiently and creates a calm, clearly structured front.

The mailboxes are made of stainless steel V2A and are powder-coated in the selected RAL colour. The weather-resistant support posts are made of brushed stainless steel V2A 1.4301, providing a high-quality contrast and forming the stable freestanding substructure.

Each compartment offers a volume of approx. 25 litres. The 35 × 265 mm inlet opening is designed for DIN C4 items in portrait format. A noise-damping rubber lip on the inlet flap, front-side mail retrieval and robust doors opening from left to right ensure user-friendly everyday operation.

The advantages of the BASIC Plus 385X ST-R system at a glance

Solid stainless steel support posts

Ø 60 mm sturdy support posts made of brushed stainless steel V2A 1.4301 form a stable base for the freestanding mailbox system. The robust construction is designed for long-term use at property entrances.

25 litres mail volume per mailbox

The mail compartments measuring 300 × 220 × 385 mm (W × H × D) each provide approx. 25 litres of volume. The 35 × 265 mm inlet opening also accommodates larger DIN C4 mail items in portrait format.

Quiet insertion and secure allocation

Rubber lips dampen the inlet flaps. Each compartment has a robust lock, two keys with key number and a protected interchangeable nameplate below the inlet flap.

Bolt fixing or concreting-in

Depending on the version, the stainless steel support posts are either bolted to a load-bearing foundation or permanently concreted in. This allows the system to be installed to suit the structural conditions.

BASIC Plus – colour of choice

The powder-coated V2A mailboxes can be chosen in a RAL colour to match the architecture. Brushed stainless steel support posts, modular construction and German manufacture complete the long-lasting system.

Equipment of the BASIC Plus 385X ST-R mailbox system

Mailbox system

Number of mailboxes 2 separately lockable compartments
Single compartment 300 × 220 × 385 mm (W × H × D)
Volume Approx. 25 litres per mailbox
Material Stainless steel V2A, powder-coated in RAL colour of choice
Inlet opening 35 × 265 mm, suitable for DIN C4 portrait
Standard Mailboxes conforming to DIN EN 13724

Mail and operation

Inlet flaps With noise-damping rubber lip
Mail retrieval From the front
Door opening Opens from left to right
Keys 2 keys with key number for each mailbox
Nameplate Interchangeable nameplate below the inlet flap
Cladding Close-fitting side cladding and robust rain canopy

Support posts and installation

Support posts Ø 60 mm stainless steel V2A 1.4301, brushed
Mounting options Selectable for bolt fixing or concreting-in
Overall height Depending on chosen support post configuration
Base material Consistent use of stainless steel V2A
Construction Modular and assembly-friendly design
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Installation of the freestanding system

For bolt fixing, a level, sufficiently load-bearing foundation is required. For the concreting-in version, the support posts must be plumb and permanently anchored in a suitably dimensioned concrete foundation. Fixings and foundation must be matched to the unit weight, ground conditions and local circumstances.

Note on weather protection

Mail is best protected from moisture and dirt only when items have been fully inserted and the inlet flaps are closed. Protruding letters or magazines can prevent the flaps from closing completely.

BASIC Plus construction and spare parts

The BASIC Plus series is modular and assembly-friendly. The consistent use of stainless steel V2A supports a long service life; spare parts for BASIC Plus systems are directly available.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), Brushed, RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
Name labelling	Nameplate
Mounting type	Free-standing
Material	Stainless steel V2A 1.4301
Number of boxes	with 2 letterboxes
Removal of mail	On the front
Boxes by volume	Large > 16 litres

Dimensions

Height of single box in mm	220.0
Width of single box in mm	300.0
Capacity in litres	25
Height of letterbox slot in mm	35.0
Width of letter slot in mm	265.0
Height of letterbox in mm	440.0
Width of letterbox system in mm	300.0
Overall height in mm	1200.0 | 1500.0 | 1700.0
Total width in mm	465.0
Depth in mm	435.0
Weight in kg	22
Delivery condition	Delivery is in blocks; stand elements / mailbox are delivered in separate parts.
