Design flush-mounted letterbox GRIMM - polished stainless steel - LOXONE Intercom/Code Touch 1x2 prepared left | Left | Prepared for dual LOXONE Intercom + Code Touch | Stainless steel, brushed | Flush-mounted

Product number 562-UP-SPL-1-VA-LOX2

Product description

Design Letterbox GRIMM® – A Masterpiece of Mailbox Craftsmanship

The Design Flush-Mounted Letterbox GRIMM combines modern design with first-class workmanship – ideal for discerning builders and architects seeking an elegant solution for integrating the LOXONE intercom. Manufactured from high-quality stainless steel and fully "Made in Germany" by the Lippe Mailbox Manufacture, this model stands for durability, functionality, and stylish aesthetics. The brushed front panel made of 2 mm stainless steel V2A (1.4301) impresses with its timeless appearance and high corrosion resistance. The flush design allows for seamless integration of up to two LOXONE system modules (not included) through a thoughtful mounting system. It is prepared for 1 piece LOXONE intercom (including a hole for sound emission) + 1 piece LOXONE NFC Code Touch/Touch Pure.

The letterbox GRIMM® is not only an optical highlight but also excels in functionality and quality. Thanks to the innovative push-key lock, the letterbox can be easily and comfortably operated with one hand. Open the door with a press and close it without using a key. The lock is optimally protected against weather influences. Additionally, the letterbox offers an intelligent extraction system: The door opens from top to bottom, ensuring the mail remains securely in the box and cannot fall towards you. The insertion is also conveniently done from the front, with high-quality axle dampers ensuring a gentle closing of the insertion flap. The GRIMM is uniquely distinguished by its double-box system: The installation box can be installed during the shell construction phase, while the front panel is mounted only after the construction work is completed – providing maximum flexibility for the future and protection against dirt and dust during the construction phase. The input box is made of stainless steel 1.4016 and features pre-cut cable entries on all sides to facilitate easy electrical installation.

Thanks to the DIN/EN 13724 standard, the GRIMM is ideal for large letters in C4 size, which can be inserted without folds. The letterbox GRIMM® impresses with its durable quality, timeless design, and well-thought-out functionality.

- High-quality letterbox entirely made of stainless steel for flush mounting.
- Front panel made of 2 mm stainless steel V2A 1.4301, brushed.
- Quality manufacturing – Made in Germany by Lippe Mailbox Manufacture.
- The LOXONE intercom can be seamlessly integrated into the flush design and replaced at any time. It is prepared for 1 piece LOXONE intercom (including a hole for sound emission) + 1 piece LOXONE NFC Code Touch/Touch Pure. WITHOUT LOXONE intercom/system components!
- Innovative push-key lock including 2 keys with key number, convenient locking without a key, optimally protected against weather.
- The extraction door with opening limiter opens from top to bottom to prevent the mail from falling towards you.
- Front-side insertion with high-quality axle dampers for very quiet insertion of mail.
- DIN/EN 13724 compliant letterbox, insertion size (3.5 cm x 32.5 cm) for C4 landscape – large letters remain intact. Additional extraction protection made of stainless steel integrated.
- Optimal weather protection due to recessed panel.
- Double-box system: Ideal for flush mounting. The panel can be conveniently installed after the completion of construction work.
- Input box made of stainless steel 1.4016 (non-corrosive, magnetic stainless steel) with pre-cut cable entries on all sides.

Important Information:

To achieve optimal water protection for your mail, the letterbox or letterbox system should, if possible, be located under a canopy.

The mail is only protected from water if it is entirely placed in the box and the insertion flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the letterbox. This system is protected against water ingress according to DIN EN 13724. Water entry is not a valid reason for complaint.

Product properties

Series	GRIMM
Functions	Camera, Intercom, Fingerprint, Keypad
Functional box prepared for manufacturer	LOXONE
Material	Stainless steel V2A 1.4301, Stainless steel 1.4016 (non-rusting magnetic stainless steel)
House number	House number as laser engraving
Name labelling	Laser-engraved
Removal of mail	On the front
Number of boxes	with 1 letterbox
Surface/colour	Brushed
Boxes by volume	Large > 16 litres
Mounting type	Flush-mounted
