Design flush-mounted mailbox GOETHE UP, side-mounted with newspaper compartment - RAL colour of your choice - GIRA System 106 - VIDEO complete set | Left | with newspaper compartment | Gira System 106 Complete Video Set 2DB

Product number 215-UP-1-SPSZF-KSGI106-L

Product description

Designer flush-mounted mailbox GOETHE UP side-mounted with newspaper compartment - RAL colour of your choice - GIRA System 106 - VIDEO complete set

High-quality flush-mounted mailbox with newspaper compartment and seamlessly integrated Gira System 106 in a flush-front design. The modern GOETHE mailbox is ideal for an upscale entrance area. The straight-lined design without a visible lock gives this mailbox an especially elegant appearance. 3 GIRA System modules are included, so the mailbox can be used immediately. The matching GIRA apartment station and the control unit to complete this mailbox are included. The modules can be exchanged subsequently at any time via the simple mounting system.

The dimensions of the single box provide a capacity of approx. 16 litres; the large slot ensures that even DIN-C4 envelopes and magazines, or mail after several days' absence, do not arrive creased. The innovative push-key lock is concealed inside the mailbox. The key is simply inserted into the provided opening (no turning required) and the door opens. With the lock arrangement, this mailbox is designed so that the collection door prevents the mail from falling out towards you. Thanks to the water-drip edge, the internal post is optimally protected from the weather. The inlet flap is equipped with high-quality hinge dampers to ensure a very quiet closure and to prevent rattling caused by weather influences.

The mailbox systems of the GOETHE collection are characterised by the consistent use of stainless steel. The result is very high longevity and sustainability. The construction has been developed by our own engineers with a focus on high flexibility and modularity, simple spare-part assembly and straightforward self-installation. Spare parts for all GOETHE systems are directly available in our shop.

Thanks to the design, self-installation is uncomplicated.

Protected utility model according to DPMA file number DE: 20 2021 101 679.5

- Flush-mounted mailbox completely made of stainless steel.
- Quality manufacture - Made in Germany by Briefkasten Manufaktur Lippe.
- Mailbox (BH 400x400mm) made of stainless steel 1.4016 (corrosion-resistant magnetic stainless steel), powder-coated in RAL colour of your choice.
- Innovative push-key lock with 2 keys.
- Mail insertion and collection are from the front. Inlet flap with high-quality hinge dampers for very quiet insertion of mail.
- The mailbox complies with DIN/EN 13724. Inlet size (3.5 cm x 36.0 cm) for C4 landscape; large letters also fit without bending.
- The collection door opens from top to bottom. This prevents mail from falling out towards you.
- Newspaper compartment (BH 400x200mm) made of stainless steel 1.4016 (corrosion-resistant magnetic stainless steel), powder-coated in RAL colour of your choice with stainless steel laser inscription "ZEITUNG" (font ARIAL; if name/house number, then in your selected font).
- Newspaper compartment opens from bottom to top.
- Function box (BH 200x600mm) made of stainless steel 1.4016 (corrosion-resistant magnetic stainless steel), powder-coated in RAL colour of your choice.
- Optionally with name inscription 15–40 mm on the info module, laser-engraved.
- Optionally with house number 60–80 mm, laser-engraved.
- Nameplate made of stainless steel, powder-coated in RAL colour. A bell is laser-engraved.
- Plaster cover frame made of 2 mm stainless steel angle profile 25 x 58 mm, powder-coated in RAL colour.
- Incl. GIRA apartment station, power supply & control unit included, System 106 info module, System 106 door station module & camera module installed.

GIRA

Camera module Gira System 106 - 5561 000, installed without cabling

- Behind the replaceable black glass panel is a high-quality camera with high light sensitivity. Thanks to a detection angle of 100°, the user is always informed about what is happening at their front door.

Info module Gira System 106 - 5560 920, installed

- For house numbers/inscriptions that should be prominently displayed.

Door station module Gira System 106 - 5565 920, installed without cabling

- Compact audio module with integrated call button for communication between inside and outside.
- A high-quality microphone and a weatherproof loudspeaker ensure good intelligibility.
- Power supply via 2-wire bus. Additional connection for ZV (e.g. required from the 3rd camera module).
- All other System 106 modules (except the audio module) are powered via the door station module.

Apartment station Gira Video AP 7 1209xx, included

- Video apartment station with a 17.78 cm (7") TFT colour display and convenient hands-free function for surface mounting or wall mounting with a flush-mount device box or hollow-wall box. With the optional stand (see Accessories) also suitable for placement on furniture. A 32 GB SD memory card is included for internal image storage. Full-surface glass front with touch functionality and tactile feedback.

Video control unit REG Gira 1288 00, included

- Control unit for supplying the audio and video components of the Gira door communication bus.
- Supplies the polarity-proof and short-circuit-proof 2-wire bus when using video components such as colour camera and TFT colour display.
- Up to 2 door stations with colour camera and 28 apartment stations with TFT colour display can be supplied via the video control unit.
- In total, up to 15 colour cameras can be controlled by the video control unit (5 video door stations and 10 TKS camera gateways), of which two door stations with colour camera can be powered by the video control unit. The remaining colour cameras must each be operated with their own power supply for door communication.
- Self-resetting electronic short-circuit and overload detection of the operating voltages and the bus connection.
- Buttons for system and door-opener programming.
- LED status indicators for power, overload, system programming and door-opener programming.
- AC 12 V output for powering a conventional door opener.
- Relay output for switching a door opener with its own power supply.
- Door opener switching time continuously adjustable from 1 to 10 s.

Power supply DC 24 V 300 mA Gira 1296 00, included

- DC 24 V power supply for supplying door communication components.
- Supply for Keyless In module.

Important information

Camera or intercom provision

The intercom systems must be connected by a qualified electrician. Please contact the electrician of your choice for planning, installation and commissioning.

Water protection

To achieve optimal water protection for your mail, the mailbox or mailbox system should, where possible, be located under an overhang.

Mail is only protected from water if it is placed completely inside the box and the inlet flap is closed. Partially inserted mail allows moisture and dirt to enter the mailbox. This system is protected against ingress of water according to DIN EN 13724. Water ingress is not a reason for complaint.
