7-unit freestanding mailbox system Design BASIC 385P-7016-SP with bell-intercom unit incl. side cladding & rain canopy - horizontal mailboxes - Anthracite Grey RAL 7016 | RAL 7016 Anthracite grey, fine texture, matt | Right | with 7 mailboxes

Product number 385P-7016-7S-SP-R

Product description

Freestanding mailbox system BASIC 385P with bell/intercom unit on the right for 7 households – RAL 7016 Anthracite grey – narrow version

The freestanding BASIC 385P mailbox system for 7 households combines 7 individually usable mail compartments with an integrated bell-function box. This brings together mail reception, doorbell buttons and preparation for a compatible door intercom in a robust, visually closed entrance solution for larger apartment buildings, residential complexes and commercial properties. In this variant the bell/intercom unit is positioned to the right of the mailbox system.

The mailboxes are made from galvanised steel and are powder-coated in RAL 7016 Anthracite grey fine-structure matt. A close-fitting side cover with rain hood and integrated rain channels enhance weather protection. The solidly manufactured stand elements of anodised aluminium profile are also powder-coated in RAL 7016 Anthracite grey and provide an especially stable, durable base for the freestanding system.

Each of the 7 mail compartments has approx. 12 litres volume. The 35 × 265 mm insertion slot is designed for DIN C4 items in portrait orientation. A noise-dampening rubber lip reduces the impact of the insertion flap. Mail is retrieved from the front; the access doors open from left to right. Each mailbox is supplied with two keys with key number and an interchangeable nameplate beneath the insertion flap.

Advantages of the BASIC 385P mailbox system at a glance

Integrated bell-function box on the right

The system combines 7 mailboxes with 7 stainless-steel bell push-buttons and a speaker opening with universal adapter. This creates a central, tidy solution for mail and visitor communication.

Solid aluminium stand elements

Solidly manufactured, anodised aluminium profiles form the stable base of the freestanding system. The powder-coated construction combines high load-bearing capacity with a long-lasting finish for outdoor use.

DIN C4 insertion with 12 litre volume

The mailboxes each offer approx. 12 litres of post volume. The 35 × 265 mm insertion slot accepts DIN C4 items in portrait orientation without larger envelopes needing to be unnecessarily creased.

Prepared for door communication

The speaker opening with universal adapter is prepared for many commercially available flush-mounted speakers.

Robust BASIC quality in RAL 7016 Anthracite grey

Galvanised steel, stainless-steel components, solid aluminium stand elements and German manufacturing result in a resilient mailbox system for long-term use at the property entrance.

Equipment of the BASIC 385P mailbox system

Mailbox system

Number of mailboxes 7 individually usable mail compartments
Mailbox dimensions 300 × 110 × 385 mm (W × H × D) per compartment
Mail volume Approx. 12 litres per mailbox
Material Galvanised steel; side cover and rain hood made of stainless steel V2A
Finish RAL 7016 Anthracite grey fine-structure matt
Insertion slot 35 × 265 mm, suitable for DIN C4 portrait
Standard Mailboxes compliant with DIN EN 13724

Bell and intercom unit

Bell-function box Galvanised steel, powder-coated to match
Position Right
Bell push-buttons 7 round stainless-steel bell push-buttons, type 4
Speaker opening With universal adapter for commercially available flush-mounted speakers
Nameplate Resistant to indentation and impact-resistant

Solid aluminium stand elements

Stand elements Solidly manufactured, anodised aluminium profile
Coating Powder-coated in RAL 7016 Anthracite grey
Mounting options Either screw mounting or embedding in concrete
Screw mounting Stand elements selectable in 1200 or 1600 mm
Concrete embedding Stand elements selectable in 1600 or 2000 mm
Delivery condition Stand elements and mailbox system delivered split for installation
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on the bell/intercom unit

The universal adapter is suitable for many commercially available flush-mounted speakers. A speech intercom system or flush-mounted speakers, power supply and cabling are not part of the described basic equipment and must be provided to suit the planned system.

Mounting on a foundation

For screw mounting a level and sufficiently load-bearing foundation is required. The fixings must be selected to suit the foundation, system weight and local installation situation.

Mounting by embedding in concrete

For the concreted-in variant the extended aluminium stand elements are anchored vertically in a sufficiently sized concrete foundation. Foundation size and embedment depth must be matched to ground conditions, system dimensions and local loads.

Note on weather protection

The rain hood, close-fitting side cover and rain channels support weather protection. Mail items must be fully inserted so that the insertion flaps can close completely. Under extreme weather conditions small amounts of moisture may penetrate despite standard-compliant construction.

Product properties

Material	Steel, galvanised, Aluminium AlMg3 W19, Stainless steel V2A 1.4301
Series	BASIC
Number of bell push buttons	7 buttons
Functions	Light button, Intercom
Functional box prepared for manufacturer	GIRA, Busch Jaeger, Siedle, STR Elektronik, ELCOM, TCS, Ritto, ALGO, Telegärtner, Auerswald, Legrand Bticino, Comelit
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Mounting type	Free-standing
Number of boxes	with 7 letterboxes
Surface/colour	RAL 7016 anthracite grey
Removal of mail	On the front
