Freestanding XXL Parcel Box GOETHE with 1 Letterbox - Interlock System - RAL Colour of Your Choice | with 1 mailbox | Front mail retrieval | Parcel compartment 600x1200x400

Product number 215-STL-PK600-1BK

Product description

Freestanding XXL parcel box GOETHE with 1 letterbox - sluice system - RAL colour of your choice

Parcel delivery has changed significantly in recent years – customers now expect more flexibility and security than ever before. With the GOETHE parcel mailbox from Briefkasten Manufaktur you rely on an optimal combination of innovative technology and outstanding design, manufactured from high-quality stainless steel and aluminium.

The XXL GOETHE parcel mailbox features a specially designed delivery sluice. As soon as the courier places your parcel inside and the sluice closes, the parcel automatically drops into the locked retrieval compartment below. After this process the delivery sluice is immediately ready for further deliveries and is automatically isolated from the retrieval compartment, guaranteeing the highest level of security for your parcels. A parcel box for simple parcel receipt, carrier-independent parcel collection! Any delivery service (e.g. DHL, DPD, TNT, GLS, Hermes or similar) can use this parcel mailbox. The spacious interior of the GOETHE parcel mailbox is designed to accommodate DHL Parcel size L and even several smaller parcels. Depending on the placement of DHL Parcel size M items, up to four such parcels can even be stored securely and conveniently.

The dimensions of the letterbox allow a capacity of approx. 48 litres; the large insertion ensures that even DIN C3 envelopes and magazines or post accumulated during an absence of several days are not creased. The innovative push-key lock is concealed inside the mailbox. The key is simply inserted into the existing opening (no turning required) and the door opens. The position of the lock has been designed so that the retrieval door prevents mail from falling towards you. Thanks to the water runoff edge, the mail inside is optimally protected from the weather. The letter flap is fitted with high-quality hinge dampers to ensure quiet closing and to prevent any annoying rattling due to weather influences.

Briefkasten Manufaktur places particular emphasis on the selection of high-quality materials. The use of stainless steel in the manufacture of the GOETHE parcel mailbox provides extremely high corrosion resistance and an attractively appealing surface finish. Our quality assurance begins with the selection of our raw material suppliers and only ends when the parcel mailbox arrives with you in the required quality. Trust the GOETHE parcel mailbox for a secure, flexible and stylish solution to your parcel delivery needs. Be convinced by a product that combines traditional craftsmanship with state-of-the-art technology – in the true spirit of Briefkasten Manufaktur.

Protected utility model according to DPMA file number DE: 20 2021 101 679.5

- High-quality parcel mailbox made of stainless steel and aluminium, powder-coated in the colour of your choice.
- Quality manufacturing - Made in Germany by Briefkasten Manufaktur Lippe.

- Rear panel made of 1 mm stainless steel 1.4301 V2A, powder-coated in RAL of your choice.
- Base made of 40 x 40 x 2 mm stainless steel tube 1.4301 V2A, powder-coated in RAL of your choice.
- Invisible mounting within the post. The overall height is 1.45 m.

Important information

Water protection

To achieve optimal water protection for your mail, the mailbox or mailbox system should, where possible, be located under a canopy.

Postal items are only protected from water if they are placed entirely inside the box and the insertion flap is closed. Mail that is not fully inserted allows the ingress of moisture and dirt into the mailbox. This system is protected against water ingress according to DIN EN 13724. Water ingress does not constitute grounds for complaint.
