Design mailbox pillar GOETHE with newspaper compartment - RAL colour of your choice - GIRA System 106 - AUDIO complete set | Gira System 106 complete set Audio 2DB

Product number 215-STL-160-1ZFS-KSAGI106

Product description

Design mailbox column GOETHE with newspaper compartment - RAL colour of your choice - GIRA System 106 - AUDIO complete set

High-quality manufactured mailbox column with newspaper compartment and seamlessly integrated Gira System 106 in a flush-mounted design. The modern GOETHE mailbox is ideal for a sophisticated entrance area. The linear design without a visible lock gives this mailbox an especially elegant appearance. 3 GIRA System modules are included so the mailbox can be used immediately. The matching GIRA apartment station and the control unit to complete this mailbox are included. The modules can be replaced later as required via the simple retaining system.

The dimensions of the single box allow a capacity of approx. 16 litres; the large insertion slot guarantees that DIN C4 envelopes and magazines — even after several days' absence — will not be creased. The innovative push-key lock is hidden invisibly inside the mailbox. The key is simply inserted into the existing opening (no turning necessary) and the door opens. The arrangement of the lock is designed so that the retrieval door prevents the post from falling out towards you. The water drip edge protects the internal post optimally from the weather. The insertion flap is fitted with high-quality hinge dampers, guaranteeing a quiet closing and preventing annoying rattling caused by weather effects.

The mailbox systems of the GOETHE collection are characterised by consistent use of stainless steel and aluminium. The result is very high longevity and sustainability. The construction has been developed by our own engineers with a focus on high flexibility/modularity, easy spare-part replacement and straightforward self-assembly. Spare parts for all GOETHE systems are available directly in our shop.

Thanks to the design, self-assembly is uncomplicated.

Protected utility model according to DPMA file number DE: 20 2021 101 679.5

- High-quality mailbox column made from stainless steel and aluminium.
- Quality manufacturing - Made in Germany by Briefkasten Manufaktur Lippe.
- Mailbox (W x H 400 x 400 mm) made from stainless steel 1.4016 (magnetic stainless steel), powder-coated in the RAL colour of your choice.
- Innovative push-key lock with 2 keys.
- Letters are inserted and retrieved from the front. Insertion flap with high-quality hinge dampers for very quiet post insertion.
- The mailbox complies with DIN/EN 13724. Insertion size (3.5 cm x 36.0 cm) for C4 landscape; large envelopes fit without bending.
- Retrieval door opens from top to bottom, preventing your post from falling out towards you.
- Newspaper compartment (W x H 400 x 200 mm) made from stainless steel 1.4016 (magnetic stainless steel), powder-coated in the RAL colour of your choice with stainless steel laser engraving "NEWSPAPER" (font ARIAL; if a name/house number is selected, it will be in your chosen font).
- Newspaper compartment opens from bottom to top.
- Function box (W x H 400 x 200 mm) made from stainless steel 1.4016 (magnetic stainless steel), powder-coated in the RAL colour of your choice.
- Doorbell nameplate in stainless steel, powder-coated in the chosen RAL colour. For better recognisability a bell is laser-engraved on the nameplate.
- Optional laser-engraved name (a house number can also be provided here).
- Optional laser-engraved house number (a name can also be provided here).
- Optimal protection from rain via drip edges and a rain canopy made from 3 mm aluminium AlMg3 W19, powder-coated in the RAL colour of your choice.
- Side cladding made from 3 mm aluminium AlMg3 W19, powder-coated in the RAL colour of your choice.
- Rear panel and base plate made from 6 mm aluminium AlMg3 W19, powder-coated in the RAL colour of your choice.
- Invisible fixing inside the column via a reinforced base plate.
- Concealed cable entry through the body possible. Overall height is 1.65 m.
- Includes GIRA apartment station & control unit, System 106 door station module & info or blank module installed.

GIRA

Info module Gira System 106 - 5560 920, installed

- For house numbers that should be clearly displayed.

Door station module Gira System 106 - 5565 920, installed without cabling

- Compact audio module with integrated call button for communication between inside and outside.
- A high-quality microphone and a weatherproof loudspeaker ensure good intelligibility.
- Power supply via 2-wire bus. Additional connection for ZV (e.g. required from the 3rd camera module onwards).
- All other System 106 modules (except the voice module) are supplied with power via the door station module.

Surface-mounted apartment station Gira 1250XX, included

- Fully pre-assembled surface-mounted apartment station for quick and tidy installation.
- Design variety through integration into the switch programme, resulting in a uniform appearance of door communication and electrical installation.
- Can be mounted with or without a cover frame.
- Easy installation via plug-in screw terminals on the mounting plate. Contact to the apartment station is made when the apartment station is plugged onto the mounting plate.
- Easy removal of the apartment station for renovation work.
- Fixing holes for mounting.
- Signal transmission and supply of the apartment station via a polarity-protected and short-circuit-proof 2-wire bus.
- Parallel connection of up to three apartment stations possible (when power is supplied via the 2-wire bus).
- Single-person commissioning via a simple start-up procedure.
- Distinct call tones for door call, internal call and floor call.
- Selection of five different call melodies that can be individually assigned to the call buttons.
- Hands-free function (voice-operated two-way communication with echo and background noise suppression).
- Override function for loud ambient noise during a call.
- Listening protection to prevent third-party monitoring.
- Control buttons with integrated LEDs for status indication.

Audio control unit REG Gira 128700, included

- Supplies the polarity-protected and short-circuit-proof 2-wire bus.
- Auto-resetting electronic short-circuit and overload detection for the operating voltages and the bus connection.
- Buttons for system and door-opener programming.
- LED status indicators for operation, overload, system programming and door-opener programming.
- AC 12 V output for powering a standard door opener.
- Permanent AC 12 V output for powering a TKS-TK gateway.
- Relay output for switching a door opener with its own power supply.
- Door opener switching time steplessly adjustable from 1 to 10 s.

Important information

Camera or intercom preparation

Intercom systems must be connected by a qualified electrician. For planning, installation and commissioning, please contact the electrician you trust.

Water protection

To ensure optimal water protection for your post, the mailbox or mailbox system should, if possible, be located under a canopy.

Mail is only protected from water if it is placed completely inside the box and the insertion flap is closed. Partially inserted mail allows moisture and dirt to enter the mailbox. This system is protected against ingress of water in accordance with DIN EN 13724. Ingress of water is not grounds for a complaint.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	GOETHE
Connection technology	2-wire
Number of bell push buttons	1 button
Functions	Newspaper compartment, Intercom
Functional box prepared for manufacturer	GIRA
Material	Aluminium AlMg3 W19, Stainless steel V2A 1.4301, Stainless steel 1.4016 (non-rusting magnetic stainless steel)
Mounting type	Free-standing
House number	House number as laser engraving
Name labelling	Laser-engraved
Removal of mail	On the front
Number of boxes	with 1 letterbox
Boxes by volume	Large > 16 litres
