COMELIT Gateway Master ViP for door call forwarding to smartphone without IP home station

Product number 1299-1456

Product description

COMELIT Gateway Master (Comelit 1456) - Intelligent control centre for your video door intercom system

The Gateway Master allows you to control your video door intercom system via tablet, smartphone or PC - conveniently via the local WLAN or mobile network. Ideal for modern residential and commercial buildings where design and function go hand in hand.

Your benefits at a glance

- **Flexible end device integration:** integration of several indoor stations and mobile end devices for convenient acceptance of door calls and internal communication.
- **Location-independent operation:** Control in the local network or via the mobile network - for maximum accessibility.
- **Compact design:** Control cabinet-compatible module for tidy, professional installation.
- **Future-proof technology:** Network connection (Ethernet/PoE) and updates in accordance with the manufacturer's instructions.

Areas of application

The Gateway Master is suitable for **modern detached houses and apartment blocks**, **commercial properties** and **mixed-use properties**. Wherever **powerful video door communication** with smart **app integration** is required, the gateway supports reliable, convenient operation.

Important information

Camera or intercom preparation

Briefkasten Manufaktur Lippe GmbH
