Module prepared for sockets/switches/device boxes etc. | RAL 7016 Anthracite grey, fine texture, matt

Product number BML-9860-STKD-376-S-7016

Product description

Module prepared for sockets/switches/device boxes etc.

The modular socket module is the suitable complement for modular socket columns and allows flexible, needs-based configuration of the power distribution. It was specifically designed for use in the ORDO socket column.

The socket module is designed for easy installation. It is inserted into the designated module slot of the socket column and securely fixed there. The well thought-out construction allows quick replacement of individual modules, thereby reducing downtime and enabling efficient expansion.

The module is prepared for sockets so that you can install standard sockets/switches/device boxes, etc.

Module colour: RAL 7016 anthracite grey, fine-textured matt

Product properties

Material	Stainless steel V2A 1.4301
Surface/colour	RAL 7016 anthracite grey

Dimensions

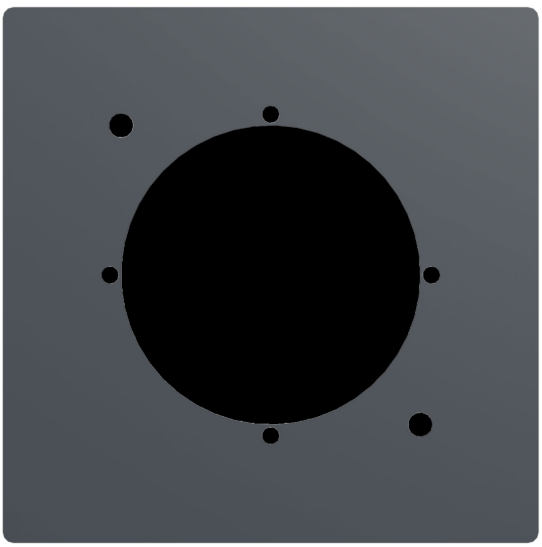

Width in mm	100
Height in mm	100
Total width in mm	100
Depth in mm	1,5
