10-unit stainless steel surface-mounted mailbox system Design BASIC Plus 385XA AP - RAL colour of your choice | 300x110x385 mm (WxHxD) - ?? Normal 12 litres | ? Colour of your choice | with 10 mailboxes

Product number 385XA-10W

Product description

Wide surface-mounted mailbox system BASIC Plus 385XA for 10 households – RAL colour of choice

The BASIC Plus 385XA surface-mounted mailbox system for 10 households is a robust wall solution for apartment buildings, residential complexes and commercial properties. The wider W-configuration distributes the mailboxes across a multi-column front and keeps the overall system relatively low and tidy in appearance.

The BASIC Plus mailbox system is consistently made from stainless steel V2A and is powder-coated in the chosen RAL colour. The modular construction is designed for durability, easy installation and good spare parts availability.

Each mailbox measures 300 × 110 × 385 mm (W × H × D) and offers approx. 12 litres of capacity. The 35 × 265 mm insertion opening is designed for DIN C4 items in portrait orientation. The doors open from left to right; each mailbox is supplied with two keys bearing a key number and a replaceable nameplate located beneath the mail flap.

The advantages of the BASIC Plus 385XA surface-mounted system at a glance

Rain canopy and side panels

The rain canopy and side panels combine the individual mailboxes into a single closed surface-mounted system. The coordinated cladding provides a calm front and a neat finish against the façade.

DIN C4 insertion and 12 litres capacity

The 300 × 110 × 385 mm (W × H × D) mailboxes each offer approx. 12 litres of capacity. The 35 × 265 mm insertion opening also accepts larger DIN C4 items in portrait orientation.

Quiet insertion and secure allocation

The rubber lip damps the mail flap. Robust locks, two keys with key number and protected replaceable nameplates ensure clear assignment of the individual mailboxes.

Mounting rail for wall installation

The surface-mounted system is designed for direct façade installation. A mounting rail makes installation easier; fixings including screws and wall plugs are part of the described configuration.

BASIC Plus in RAL colour of choice

V2A stainless steel forms the robust basis; the powder coating can be applied in the desired RAL colour to match the façade, front door and window frames. BASIC Plus also stands for consistent V2A use, modular construction and directly available spare parts.

Equipment of the BASIC Plus 385XA mailbox system

Mailbox system

Number of mailboxes 10 individually lockable mailboxes
Single box 300 × 110 × 385 mm (W × H × D)
Capacity Approx. 12 litres per mailbox
Material Stainless steel V2A, powder-coated in RAL colour of choice
Finish Powder coating in RAL colour of choice
Standard DIN EN 13724

Mail and operation

Insertion opening 35 × 265 mm, suitable for DIN C4 portrait
Mail flaps With noise-damping rubber lip
Mail removal From the front
Door opening From left to right
Keys Two keys with key number per mailbox
Nameplate Replaceable nameplate beneath the mail flap

Cladding and wall installation

Side panel Close-fitting design
Rain canopy Solid, matching the system
Installation type Surface-mounted wall installation
Installation aid Mounting rail
BASIC Plus Modular construction with directly available spare parts
Fixings Screws and wall plugs included; verify suitability for on-site wall construction
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on wall installation

Briefkasten Manufaktur Lippe GmbH

The wall must be even and sufficiently load-bearing. The supplied screws and wall plugs should only be used if they are suitable for the existing wall construction; for other substrates or external thermal insulation systems, suitable fixing solutions must be determined on site.

Note on weather protection

Mail is best protected from moisture and dirt only when items are fully inserted and the mail flap is closed. Protruding letters or magazines can prevent the flap from closing completely.

BASIC Plus construction

The BASIC Plus series consistently uses stainless steel V2A and a modular, installation-friendly construction. Spare parts are directly available for BASIC Plus systems.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Material	Stainless steel V2A 1.4301
Removal of mail	On the front
Number of boxes	with 10 letterboxes
Mounting type	Surface-mounted
