2-piece stainless steel letterbox column Designer BIG with DoorBird D2100E video intercom - RAL of your choice

Product number 599B-VAR-2-KSDB2101E

Product description

2-piece stainless steel letterbox column Designer BIG with DoorBird D2100E video intercom - RAL colour of your choice

Stylish stainless steel pillar made of stainless steel V2A 1.4301, powder-coated in RAL colour. The column is fully welded, so no rivets or screws are visible. The letterbox module is also inserted into the pillar with invisible screws. The letterbox module is also made of 2mm stainless steel V2A 1.4301, powder-coated in RAL colour and can be replaced with a new letterbox module even after many years. Integrated DoorBird IP Video Door Station D2100E. The DoorBird IP Video Door Station D2100E is the smart solution for your entrance door. The IP video door station can be operated as a stand-alone unit or integrated into an existing smart home platform. Existing, classic installations such as a door chime or an electric door and gate opener can also continue to be used with DoorBird and controlled via the app.

Our products have a high quality, reliable functionality and their own identity. Made by Briefkasten Manufaktur. The DoorBird was not only invented and developed in Germany, but is also still produced in Berlin today. At DoorBird, "Made in Germany" is not just a seal, but a philosophy that is lived and breathed. The IP video door stations are manufactured in the DoorBird factory to guarantee the highest quality, durability and customer satisfaction.

- The letterbox module is made of 2mm stainless steel V2A 1.4301, powder-coated in a RAL colour of your choice.
- Front mail removal doors 350 mm x 300 mm, open from top to bottom. Incl. 2 keys with key number.
- Mail slot from the front, dimensions: W 35 cm x H 6.3 cm, C4 landscape. Very large letters fit in here without creasing.
- Mail slot flap with built-in damping elements, which allow the mail slot flap to close slowly and quietly.
- The pedestals are fitted with modules that can be replaced at a later date.
- Removal doors open from top to bottom.
- Optionally with house number, backlit in white incl. EVN LED power supply unit / transformer IP65 12V/DC 0.1-4W for LED illumination of the house number.
- The fully welded pedestal is made of 1.5mm stainless steel V2A 1.4301, powder-coated in RAL colour. Construction height is 1.70 m.
- Invisible cable feed possible through the body.
- The pedestal is fitted with a VA base plate. This is 10 mm thick and is finished with a cover plate. This conceals the fixing plugs.
- Incl. DoorBird IP video door station D2100E installed.

Important information

Camera or intercom preparation

The intercom systems must be connected by an electrician. Please contact your trusted electrician for planning, fitting and installation.

Water protection

To achieve optimum water protection for your mail, the letterbox or letterbox system should be located under a canopy if possible.

The mail is only protected from water if it is fully inserted in the box and the flap is closed. Mail that is not fully inserted allows moisture and dirt to penetrate the letterbox. It is therefore necessary to plan sufficiently dimensioned letterboxes for the upcoming requirements. Under certain extreme weather conditions, water can still enter (up to 1ccm according to DIN EN 13724). This is not a reason for complaint.
