Security letterbox type 116 AP - polished stainless steel | Stainless steel, brushed

Product number 582

Product description

Security letterbox type 116 AP - polished stainless steel

The security letter box type 116 AP is a wall-mounted letter box with increased security standard, made of solid stainless steel V2A with a continuous material thickness of 5 mm. The combination of robust construction, precise workmanship and modern appearance makes this letter box the ideal choice for both private and professional use.

Increased security thanks to solid materials

The exceptionally strong 5 mm stainless steel construction gives the type 116 AP enormous stability and resistance. The insertion mechanism is equipped with toothed plates and steel pins that reliably prevent the mail from being pulled out after insertion. With a weight of around 20 kg, the letterbox offers high wall stability and protection against tampering or vandalism.

Thanks to its solid construction, the type 116 AP fulfils the requirements for security, durability and functionality in equal measure - a reliable solution for sensitive or valuable documents.

Versatile application options

The type 116 AP security letterbox is equally suitable for **private homes** and **professional institutions** with increased security requirements:

- **Home sector and modern residential buildings:** ideal for detached houses or design properties that value a high-quality, durable and secure mail solution. Stainless steel also offers excellent corrosion protection and an elegant look in the entrance area.
- **Banks and financial institutions:** Even in the age of online banking, the secure posting of physical documents, contracts or keys remains relevant. The type 116 AP offers protection against unauthorised access and ensures the confidential handover of sensitive documents.
- **Tax consultants, law firms and lawyers:** clients can hand in documents, contracts or receipts securely and discreetly - even outside office hours. The solid stainless steel construction provides reliable protection against unauthorised access.
- **Car dealerships and garages:** Perfect for handing in keys, vehicle documents or service orders. The robust design withstands frequent use and outdoor installation.
- **Municipalities and public institutions:** A durable and prestigious solution for citizens' mail, applications and official documents. The letterbox can also withstand intensive use in public spaces.

Design, quality and sustainability

The **polished stainless steel surface** gives the type 116 AP an elegant, modern look and blends harmoniously into any architecture. Stainless steel V2A is corrosion-resistant, easy to clean and fully recyclable - a durable, sustainable material for everyday use.

Each letterbox is manufactured in Germany - with **precision craftsmanship** and **state-of-the-art production technology**. The result is a product that impresses in terms of both function and design and remains reliable in use for many years.

Technical data at a glance

- Material: V2A stainless steel, polished
- Material thickness: 5 mm all round
- Insertion formats: up to DIN B4
- Security features: Toothed plate and steel pins to prevent unauthorised removal
- Lock: ABUS profile half cylinder 30/10 (interchangeable, e.g. for locking systems)
- Mounting: Wall mounting
- Weight: approx. 20 kg

Important information:

To achieve optimum water protection for your mail, the letterbox or letterbox system should be located under a canopy if possible.

The mail is only protected from water if it is completely placed in the box and the flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the letterbox. This system is protected against the ingress of water in accordance with DIN EN 13724. Water ingress is not a reason for complaint.
