Designer flush-mounted mailbox GOETHE UP with newspaper compartment - RAL colour of your choice - prepared for GIRA System 106 | with newspaper compartment | 100mm depth | Prepared for Gira System 106

Product number 215-UP-1-SP-ZF-GI106V

Product description

Design recessed built-in mailbox GOETHE UP with newspaper compartment - RAL of your choice - prepared for GIRA System 106

The recessed mailbox GOETHE with newspaper compartment combines modern design with first-class workmanship – ideal for discerning builders and architects seeking an elegant solution for integrating the GIRA System 106. The modern GOETHE mailbox is perfect for a sophisticated entrance area. Its linear shape without a visible lock gives this mailbox a particularly elegant appearance. The flush-fitting design enables seamless integration of up to three GIRA 106 system modules (not included) via a well thought-out mounting system. The optional surface-mounted housing (5503910) is required for installing the Gira components.

The dimensions of the single box provide a capacity of approx. 16 litres; the large entry ensures that DIN-C4 envelopes and magazines, or post accumulated during several days away, do not arrive creased. The innovative push-key lock is hidden inconspicuously inside the mailbox. The key is simply inserted into the existing opening (no turning required) and the door opens. The arrangement of the lock is designed so that the retrieval door prevents your post from falling out towards you. Thanks to the water run-off edge, the internal mail is optimally protected from the weather. The letter flap is fitted with high-quality hinge dampers to ensure quiet closing and to prevent annoying rattling caused by the weather.

The mailbox systems in the GOETHE collection are characterised by consistent use of stainless steel. The result is very high durability and sustainability. The construction has been developed by our own engineers with a focus on high flexibility and modularity, easy spare parts installation and straightforward self-assembly. Spare parts for all GOETHE systems are available directly in our shop.

Thanks to the construction method, self-assembly is uncomplicated.

Protected utility model according to DPMA file reference DE: 20 2021 101 679.5

- Recessed mailbox completely made of stainless steel.
- Quality manufacturing – Made in Germany by Briefkasten Manufaktur Lippe.
- Mailbox (W × H 400 × 400 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in RAL of your choice.
- Innovative push-key lock with 2 keys.
- Mail insertion and retrieval are from the front. Letter flap with high-quality hinge dampers for very quiet post insertion.
- The mailbox complies with DIN/EN 13724. Insertion size (3.5 cm × 36.0 cm) for C4 in landscape orientation; large letters also fit without creasing.
- The retrieval door opens from top to bottom. This prevents the post from falling out towards you.
- Newspaper compartment (W × H 400 × 200 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in RAL of your choice with stainless steel laser inscription "ZEITUNG" (font ARIAL; if name/house number is chosen, it will use your selected font).
- The newspaper compartment opens from bottom to top.
- Function box (W × H 400 × 200 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in RAL of your choice.
- The GIRA System 106 can be seamlessly integrated in the flush-fitting design. The preparation is provided for 3 GIRA 106 system modules. The modules can be flush-fitted using the simple mounting system (surface-mounted housing 5503910 required!). WITHOUT GIRA system components!
- Plaster cover frame made from 2 mm stainless steel angle profile 25 × 58 mm, powder-coated in RAL colour.

Important information:

For optimal protection of your post from water, the mailbox or mailbox system should, where possible, be located under a canopy.

Mail is only protected from water if it is placed completely inside the box and the letter flap is closed. Partially inserted mail allows moisture and dirt to enter the mailbox. This system is protected against water ingress in accordance with DIN EN 13724. Water ingress is not grounds for complaint.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	GOETHE
Functions	Newspaper compartment, Camera, Intercom, Fingerprint, Keypad
