Floor-standing letterbox with display case BASIC Plus 389X ST-T with bell box - 710x660 - RAL 7016 anthracite grey | RAL 7016 Anthracite grey, fine texture, matt | Right

Product number 389XP-4SP-R-7016

Product description

Floor-standing letterbox with showcase BASIC Plus 389X ST-T with bell box - 710x660 - RAL of your choice

High-quality display case made in Germany by Briefkasten Manufaktur. The ideal solution for simple poster display indoors and outdoors.

The display case is made entirely of aluminium, powder-coated in RAL colour. The display case is suitable for 2x DIN A-4 sheets and has a magnetic back panel in RAL colour and a white text panel in the upper visible area. The glazing is made of toughened safety glass, with integrated ventilation openings to prevent the glass from misting up.

The letterbox is made of V2A stainless steel, powder-coated in RAL colour. The very high-quality workmanship and the well thought-out concept make this free-standing letterbox our top seller. A rain drainage edge for optimum water protection, a continuous rubber lip for quiet insertion, the solid interchangeable nameplate, a practical post holder and the very robust lock characterise this free-standing letterbox. The side panelling with protruding rain cover made of V2A stainless steel offers optimum protection against the weather and guarantees a very long service life. The installation box allows easy installation of a built-in loudspeaker for an intercom system. The letterbox is optionally available with an integrated and pre-configured video intercom system from COMELIT.

The letterbox systems in the BASIC Plus collection are characterised by the consistent use of V2A stainless steel. The result is a very long service life and sustainability. The design has been developed by our own engineers with a view to high flexibility and modularity, simple spare parts assembly and uncomplicated self-assembly. Spare parts are directly available for all BASIC Plus systems.

- Anti-vandalism - The nameplate is indentation-proof and impact-resistant, the plastic is flame-retardant.
- Cable access: Ø 14 mm (on the right side). Invisible cable routing through the stand element.
- The stand elements are made of aluminium profile, powder-coated in RAL colour for screw mounting or setting in concrete.

Important information

Camera or intercom preparation

The intercom systems must be connected by an electrician. Please contact your trusted electrician for planning, fitting and installation.

Water protection

The mail is only protected against moisture and dirt when it is fully inserted and the flap is closed. Under certain extreme weather conditions, water may still enter (up to 1ccm according to DIN EN 13724). This is not a reason for complaint.
