Surface-mounted mailbox system STORM for 12 households – 4-column – RAL 7016 anthracite grey | RAL 7016 Anthracite grey, fine texture, matt | with 12 mailboxes (4x3)

Product number 480A-12-4X3-7016

Product description

Surface-mounted mailbox system STORM for 12 units – RAL 7016 Anthracite grey

The STORM surface-mounted mailbox system for 12 units is a high-quality multi-occupancy solution for larger residential buildings, mixed residential and commercial properties, and commercially used premises. Twelve independent mailboxes provide each unit with a separate, securely lockable compartment.

The mailbox system is manufactured from high-quality galvanized steel. The uniform powder coating of the mailboxes, rain hood and side panels in RAL 7016 Anthracite grey fine-textured matt gives a particularly high-quality and architecturally clear overall appearance.

Each of the 12 mail compartments features a 35 × 340 mm DIN C4 aperture, a noise-dampened insertion flap, a collection door with opening stop and a mail retention bar. Individual locks, two keys each and interchangeable nameplates allow clear allocation.

The advantages of the STORM surface-mounted mailbox system at a glance

High-quality solution for apartment buildings with 12 units

Twelve independent mailboxes make this STORM system a professional entrance solution for larger apartment buildings and properties with many separate usage units.

Very high material quality

The mailboxes as well as the rain hood and side panels are made from galvanized steel. The solid metal construction conveys high value and is designed for intensive use in multi-occupancy properties.

RAL 7016 fine-textured matt – premium and uniform

The anthracite grey fine-textured surface extends across the entire visible system. This gives even a 12-unit system a calm, modern and high-quality appearance.

DIN C4 convenience for all 12 units

Each mailbox has a generous 35 × 340 mm aperture for DIN C4-format mail in landscape orientation.

Thought-out equipment for many users

Noise-dampened insertion flaps, opening stops, mail retention bars and separate locks ensure comfortable and clearly structured use, even with twelve units.

Equipment of the STORM surface-mounted mailbox system

Construction and finish

Configuration 4 columns × 3 rows
Mail compartments 12 separately lockable mailboxes
Material Galvanized steel
Rain hood and side panels Galvanized steel
Finish RAL 7016 Anthracite grey fine-textured matt
Standard DIN EN 13724

Mail convenience

Aperture 35 × 340 mm per mailbox
Insertion flaps With high-quality rubber buffers
Mail collection Front-facing, opens downwards with opening stop
Mail retention bars 12 pieces, one per mailbox
Keys 24 in total, 2 per mailbox
Nameplates 12 protected interchangeable nameplates

Installation and manufacturing

Mounting type Surface-mounted wall installation
Mounting screws Included in delivery
Application Larger apartment buildings, residential complexes and commercial properties
Manufacturing Made in Germany by Briefkasten Manufaktur Lippe

Note on weather protection

For optimal protection of mail we recommend a sheltered installation location. Mail items must be fully inserted so that all insertion flaps can close.

Installation of the large multi-occupancy system

Due to dimensions and total weight, ensure a sufficiently load-bearing, level wall and an even, professional anchoring of all fixing points.
