Product number 215-UP-1-SPSZF-KSGI106-R

Product description

Design recessed letterbox GOETHE UP side-mounted with newspaper compartment - RAL colour of your choice - GIRA System 106 - VIDEO complete set

High-quality recessed letterbox with newspaper compartment and seamlessly integrated Gira System 106 in a flush-fit design. The modern GOETHE letterbox is ideal for an upscale entrance area. The linear form without a visible lock gives this letterbox an especially elegant appearance. 3 GIRA system modules are included so the letterbox can be used immediately. The matching GIRA apartment station and the control unit to complete this letterbox are included. The modules can be exchanged later as desired via the simple retention system.

The dimensions of the single box allow a capacity of approx. 16 litres; the large inlet ensures that DIN-C4 envelopes and magazines — or post accumulated during several days away — do not become creased. The innovative Push-Key lock is concealed invisibly inside the letterbox. The key is simply inserted into the existing opening (no turning necessary) and the door opens. With the arrangement of the lock, this letterbox is designed so that the access door prevents the post from falling towards you. The water drain edge ensures that the internal post is optimally protected from the weather. The inlet flap is fitted with high-quality axle dampers, guaranteeing a quiet close and preventing annoying rattling caused by weather influences.

The letterbox systems of the GOETHE collection are characterised by the consistent use of stainless steel. The result is very high durability and sustainability. The construction has been developed by our own engineers with a view to high flexibility and modularity, simple spare-part installation and uncomplicated self-assembly. Spare parts for all GOETHE systems are available directly in our shop.

Thanks to the design, self-assembly is straightforward.

Registered utility model according to DPMA file number DE: 20 2021 101 679.5

- Recessed letterbox completely made of stainless steel.
- Quality production - Made in Germany by Briefkasten Manufaktur Lippe.
- Letterbox (BH 400x400mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in a RAL colour of your choice.
- Innovative Push-Key lock with 2 keys.
- Mail insertion and retrieval both from the front. Inlet flap with high-quality axle dampers for very quiet mail insertion.
- The letterbox complies with DIN/EN 13724. Inlet size (3.5 cm x 36.0 cm) for C4 landscape; large letters fit without bending.
- Access door opens from top to bottom. This prevents your post from falling towards you.
- Newspaper compartment (BH 400x200mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in a RAL colour of your choice with stainless steel laser inscription "NEWSPAPER" (font ARIAL; if name/house number is chosen, it will be in your selected font).
- Newspaper compartment opens from bottom to top.
- Function box (BH 200x600mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in a RAL colour of your choice.
- Optionally with name inscription 15-40mm on the info module, laser-engraved.
- Optionally with house number 60-80mm, laser-engraved.
- Nameplate made of stainless steel, powder-coated in RAL colour. A bell is laser-engraved.
- Plaster cover frame made of 2mm stainless steel angle profile 25 x 58 mm, powder-coated in RAL colour.
- Incl. GIRA apartment station, power supply & control unit included, System 106 info module, System 106 door station module & camera module installed.

GIRA

Camera module Gira System 106 - 5561 000, installed without cabling

- Behind the interchangeable black glass pane is a high-quality camera with high light sensitivity. Thanks to a detection angle of 100° the user always has a clear view of what is happening in front of their door.

Info module Gira System 106 - 5560 920, installed

- For house numbers/labels that should be clearly highlighted.

Door station module Gira System 106 - 5565 920, installed without cabling

- Compact audio module with integrated call button for communication between inside and outside.
- A high-quality microphone and a weatherproof speaker ensure good intelligibility.
- Power supply via 2-wire bus. Additional connection for ZV (e.g. required from the 3rd camera module).
- All other System 106 modules (except the audio module) are powered via the door station module.

Apartment station Gira Video AP 7 1209xx, included

- Video apartment station with a 17.78 cm (7") TFT colour display and convenient hands-free function for surface mounting or wall mounting with a flush-mount device box or cavity wall box. With the optional stand (see Accessories) it is also suitable for placement on furniture. A 32 GB SD memory card is included for internal image storage. Full-area glass front with touch functionality and tactile feedback.

Video control unit REG Gira 1288 00, included

- Control unit for powering the audio and video components of the Gira door communication bus.
- Supplies the polarity-proof and short-circuit resistant 2-wire bus when using video components such as colour camera, TFT colour display.
- Up to 2 door stations with colour camera and 28 apartment stations with TFT colour display can be supplied via the Video control unit.
- In total, up to 15 colour cameras can be controlled by the Video control unit (5 Video door stations and 10 TKS camera gateways), of which two door stations with colour camera can be powered by the Video control unit. The other colour cameras must each be operated with their own power supply for door communication.
- Self-resetting electronic short-circuit and overload detection of the operating voltages and the bus connection.
- Buttons for system and door-opener programming.
- LED status indicators for operation, overload, system programming and door opener programming.
- AC 12 V output for powering a conventional electric door opener.
- Relay output for switching a door opener with its own power supply.
- Door opener switching time continuously adjustable from 1 to 10 s.

Power supply DC 24 V 300 mA Gira 1296 00, included

- DC 24 V power supply for door communication components.
- Supply for Keyless In module.

Important information

Camera or intercom preparation

The intercom systems must be connected by an electrician. Please contact the electrician of your choice for planning, installation and commissioning.

Water protection

For optimal protection of your post from water, the letterbox or letterbox system should, where possible, be located under a canopy.

Mail is only protected from water if it is placed completely inside the box and the inlet flap is closed. Post that is not fully inserted allows moisture and dirt to enter the letterbox. This system is protected against water ingress according to DIN EN 13724. Water ingress is not a reason for a complaint.
