Product number 215-AP-1-SP-ZF-KSAGI106

Product description

Design surface-mounted mailbox GOETHE® AP with newspaper compartment - RAL colour of your choice - GIRA System 106 - AUDIO complete set

High-quality surface-mounted mailbox with newspaper compartment and seamlessly integrated Gira System 106 in a flush-fit design. The modern GOETHE® mailbox is ideal for an upscale entrance area. The straight-lined design without a visible lock gives this mailbox a particularly elegant appearance. 3 Gira System modules are included so the mailbox can be used immediately. The matching Gira apartment station and the control unit to complete this mailbox are included. The modules can be easily exchanged later using the simple retention system.

The dimensions of the single box provide a capacity of approx. 16 litres; the large entry slot ensures that even DIN-C4 envelopes and magazines or post after several days' absence remain uncreased. The innovative push-key lock is hidden invisibly inside the mailbox. The key is simply inserted into the existing opening (no turning required) and the door opens. The position of the lock is designed so that the collection door prevents the post from falling towards you. Thanks to the water-drip edge, the internal post is optimally protected from the weather. The insertion flap is equipped with high-quality damper hinges, guaranteeing quiet closing and preventing annoying rattling caused by weather influences.

The surface-mounted mailbox systems of the GOETHE® collection are characterised by the consistent use of stainless steel and aluminium. The result is very high durability and sustainability. The construction has been developed by our own engineers with a view to high flexibility and modularity, easy spare-part assembly and straightforward self-installation. Spare parts for all GOETHE® systems are available directly in our shop.

Thanks to the construction, self-installation is uncomplicated.

Protected utility model according to DPMA file number DE: 20 2021 101 679.5

- High-quality surface-mounted mailbox made of stainless steel and aluminium.
- Quality manufacturing - Made in Germany by Briefkasten Manufaktur Lippe.
- Mailbox (W x H 400 x 400 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in RAL colour of your choice.
- Innovative push-key lock with 2 keys.
- Letters are inserted and removed from the front. Insertion flap with high-quality damper hinges for very quiet mail insertion.
- The mailbox complies with DIN/EN 13724. Entry size (3.5 cm x 36.0 cm) for C4 landscape; large letters fit without bending.
- Collection door opens from top to bottom. This prevents the mail from falling towards you.
- Newspaper compartment (W x H 400 x 200 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in RAL colour of your choice with stainless steel laser engraving "NEWSPAPER" (font ARIAL; if name/house number is selected, the chosen font will be used).
- Newspaper compartment opens from bottom to top.
- Function box (W x H 400 x 200 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in RAL colour of your choice.
- Doorbell nameplate made of stainless steel, powder-coated in the chosen RAL colour. For better recognisability, a bell is laser-engraved on the nameplate.
- Optionally with laser-engraved name inscription (a house number can also be provided here).
- Optionally with laser-engraved house number (a name inscription can also be provided here).
- Optimal protection from rain via rain-drip edges and a rain hood made of 3 mm aluminium AlMg3 W19, powder-coated in RAL colour of your choice.
- Side cladding made of 3 mm aluminium AlMg3 W19, powder-coated in RAL colour of your choice.
- Includes mounting rail for wall installation.
- Includes Gira apartment station & control unit; System 106 door station module & info/blank module fitted.

GIRA

Info module Gira System 106 - 5560 920, installed

- For house numbers that should be prominently displayed.

Door station module Gira System 106 - 5565 920, installed without cabling

- Compact audio module with integrated call button for communication between inside and outside.
- A high-quality microphone and a weatherproof loudspeaker ensure good intelligibility.
- Power supply via 2-wire bus. Additional connection for ZV (e.g. required from the 3rd camera module).
- All other System 106 modules (except the audio module) are powered via the door station module.

Apartment station AP Gira 1250XX, included

- Completely pre-assembled surface-mounted apartment station, allowing quick and tidy installation.
- Design variety through integration into the switch programme, resulting in a uniform appearance for door communication and electrical installation.
- Can be mounted with or without a cover frame.
- Easy installation via pluggable screw terminals on the mounting plate. Contact to the apartment station is made when the station is plugged onto the mounting plate.
- Easy removal of the apartment station during renovation work.
- Mounting holes for installation.
- Signal transmission and supply of the apartment station via a polarity-proof and short-circuit-proof 2-wire bus.
- Parallel connection of up to three apartment stations possible (with power supply via 2-wire bus).
- Single-person commissioning through a simple start-up procedure.
- Different call tones for door call, internal call and floor call.
- Choice of five different ringtones, which can be individually assigned to the call buttons.
- Hands-free function (voice-controlled two-way communication with echo and background-noise suppression).
- Override function for loud ambient noise during the conversation.
- Privacy lock.
- Control buttons with integrated LEDs for status indication.

Control unit Audio REG Gira 128700, included

- Supplies the polarity-proof and short-circuit-proof 2-wire bus.
- Self-resetting electronic short-circuit and overload detection for the supply voltages and the bus connection.
- Buttons for system and door opener programming.
- LED status indicators for operation, overload, system programming and door opener programming.
- AC 12 V output for powering a conventional door opener.
- Permanent AC 12 V output for powering a TKS-TK gateway.
- Relay output for switching a door opener with its own power supply.
- Door opener switching time continuously adjustable from 1 to 10 s.

Important information

Camera or intercom provision

The intercom systems must be connected by a qualified electrician. For planning, installation and commissioning, please contact an electrician you trust.

Water protection

To achieve optimal protection of your post from water, the mailbox or mailbox system should, where possible, be located under a canopy.

Mail is only protected from water if it is placed completely inside the box and the insertion flap is closed. Partially inserted mail allows moisture and dirt to enter the mailbox. This system is protected against water ingress according to DIN EN 13724. Water ingress is not a reason for a complaint.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	GOETHE
Connection technology	2-wire
Number of bell push buttons	1 button
Functions	Newspaper compartment, Intercom
Functional box prepared for manufacturer	GIRA
