Surface-mounted mailbox system STORM for 9 units – 3-column – RAL 7016 anthracite grey | RAL 7016 Anthracite grey, fine texture, matt | with 9 mailboxes (3x3)

Product number 480A-9-3X3-7016

Product description

Surface-mounted mailbox system STORM for 9 households – RAL 7016 Anthracite grey

The STORM surface-mounted mailbox system for 9 households is a high-quality entrance solution for apartment buildings, residential and commercial properties as well as smaller commercial premises. Nine separate compartments provide each household with its own lockable mailbox and enable clear organisation of incoming mail.

The entire visible mailbox system is manufactured from finely processed galvanised steel. Mailboxes, rain canopy and side cladding are uniformly powder-coated in RAL 7016 Anthracite grey fine-textured matt. The fine-textured, matt surface emphasises the high material and workmanship quality and creates a modern, architecturally calm overall appearance.

Each of the 9 compartments has a 35 × 340 mm insertion opening suitable for DIN C4 landscape, a noise-dampening insertion flap with high-quality rubber buffers and a downward-opening front door with an opening stop. Integrated mail retention brackets, individual locks and protected interchangeable nameplates provide high user comfort and clear allocation.

The advantages of the STORM surface-mounted mailbox system at a glance

Ideal for apartment buildings with 9 households

Nine independent compartments make this STORM system a premium solution for apartment buildings and properties with multiple separate usage units. Each resident receives a full-size, individually lockable mailbox.

Very high material quality from galvanised steel

Mailboxes, rain canopy and side cladding are made from finely processed galvanised steel. The solid metal construction is designed for long-term daily use and gives the entire system a high perceived value.

RAL 7016 Anthracite grey – fine-textured matt

The entire visible system is uniformly powder-coated in RAL 7016 Anthracite grey fine-textured matt. The finely textured, matt surface appears particularly high-quality and can be harmoniously combined with modern façades, front doors and window profiles.

Comfortable insertion of DIN C4 mail

Each mailbox has a 35 × 340 mm insertion opening. This allows DIN C4 mail items to be inserted in landscape format without unnecessary folding.

Thoughtful comfort for 9 households

Noise-dampening rubber buffers reduce impact noise when closing. The access doors open downwards and feature an opening stop. Integrated mail retention brackets prevent items from falling out uncontrolled when opened.

Equipment of the STORM surface-mounted mailbox system

Construction and surface

Configuration 3 columns × 3 rows
Compartments 9 separately lockable mailboxes
Mailbox material Galvanised steel
Rain canopy and side cladding Galvanised steel
Surface RAL 7016 Anthracite grey fine-textured matt
Standard Mailboxes conforming to DIN EN 13724

Postal convenience

Insertion opening 35 × 340 mm per mailbox, suitable for DIN C4 landscape
Insertion flaps With high-quality, noise-dampening rubber buffers
Mail retrieval Front access, door opens downwards with opening stop
Mail retention brackets Integrated in each mailbox
Keys 18 keys in total, 2 per mailbox
Nameplates 9 protected interchangeable nameplates, one per household

Mounting and manufacture

Mounting type Surface-mounted wall installation
Mounting screws Included
Application Apartment buildings, residential and commercial properties as well as smaller commercial premises
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on weather protection

For the best possible protection of posted mail we recommend installation under a canopy or in a protected entrance area. Mail items must be fully inserted so that the insertion flaps can close completely.

Note on wall mounting

Due to the size and weight of the 9-household system the load-bearing capacity, evenness and condition of the mounting wall must be checked carefully. Depending on masonry, concrete or façade construction, additional anchors or special fixing systems may be required.

Product properties

Material	Steel, galvanised
Series	STORM
Number of boxes	with 9 letterboxes
Boxes by volume	Normal > 10 litres
House number	House number as laser engraving
Surface/colour	RAL 7016 anthracite grey
Name labelling	Laser-engraved
Removal of mail	On the front
Mounting type	Surface-mounted
