Socket/power column ORDO for floor mounting - CEE - Schuko - 411 mm - 6-way - 2-column - RAL 7016 anthracite grey | RAL 7016 Anthracite grey, fine texture, matt | 6-unit, 2-column

Product number 376-6-2-7016

Product description

Modular socket column ORDO, 6-module, two-column, 411 mm – RAL 7016 Anthracite grey

The modular socket column **ORDO** with six module positions offers numerous possibilities for individual outdoor power supply on a compact footprint. The **two-column arrangement** provides a total of six module positions with an overall height of only **411 mm**.

The power column is suitable for gardens, terraces, residential complexes, outdoor areas of commercial properties and publicly used spaces. The two-column design enables a clear combination of different sockets, switches, push-buttons and other functional modules.

The column is made from **galvanised steel** and **powder-coated in RAL 7016 Anthracite grey, fine-textured matt**. The robust surface offers long-lasting protection against corrosion and weathering. Two integrated rain canopies additionally protect the modules arranged beneath them from direct moisture.

- Two-column socket column with a total of six module positions.
- Compact overall height of 411 mm.
- Manufactured from galvanised steel.
- Powder-coated in RAL 7016 Anthracite grey, fine-textured matt finish.
- Integrated rain canopies for protection against the weather.
- Modular design for individual combination of different functions.
- Can be equipped, for example, with CEE or Schuko sockets as well as prefabricated modules for your own switch programmes.
- Additional equipment such as switches, push-buttons, key switches, communication connectors, industrial sockets, motion detectors, lighting or water connections are available on request.
- Socket modules protected at the rear by high-quality plastic housings.
- Well-considered installation: secure the column to the floor, wire it, slide in and fasten the front panels.
- German quality manufacturing at Briefkasten Manufaktur.

Important information

The installation, electrical connection and testing of the sockets and components used must be carried out by a qualified electrician.

Note for camping, caravan and motorhome pitches

This version has more than four module positions and is not intended as a power supply for camping, caravan or motorhome pitches. Special requirements apply to socket types, circuit protection, residual current protection (RCD) and maximum grouping for these applications.

The specific planning, installation and testing must be carried out by a qualified electrician in accordance with the national regulations applicable at the place of use. In Germany, the relevant DIN VDE standards in particular must be observed.

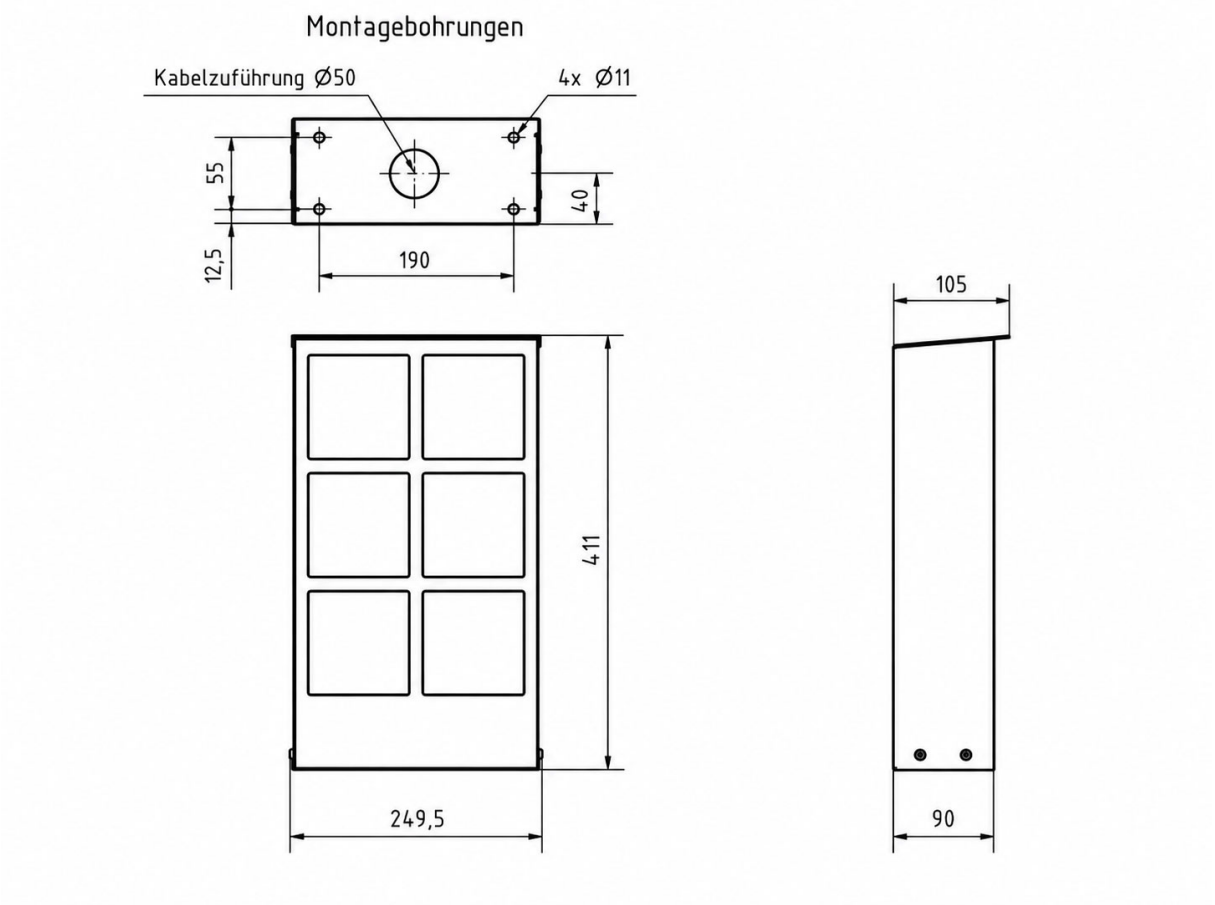

Product properties

Material	Steel, galvanised, Stainless steel V2A 1.4301
Series	ORDO
Mounting type	Free-standing
Surface/colour	RAL 7016 anthracite grey

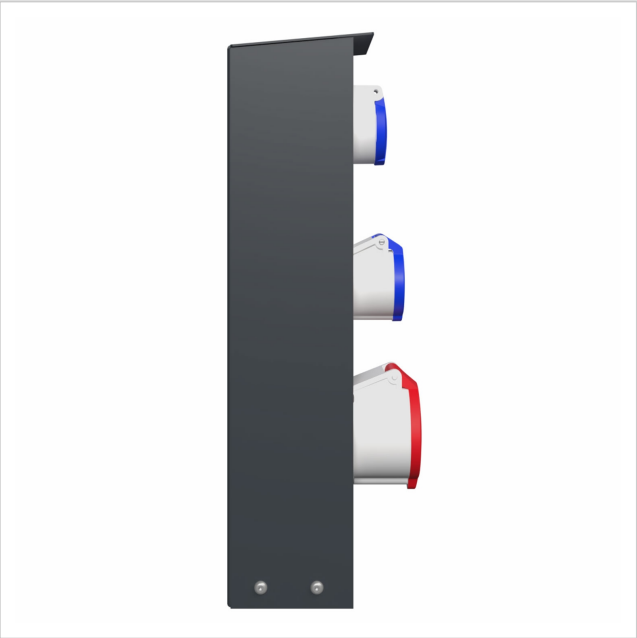

Dimensions

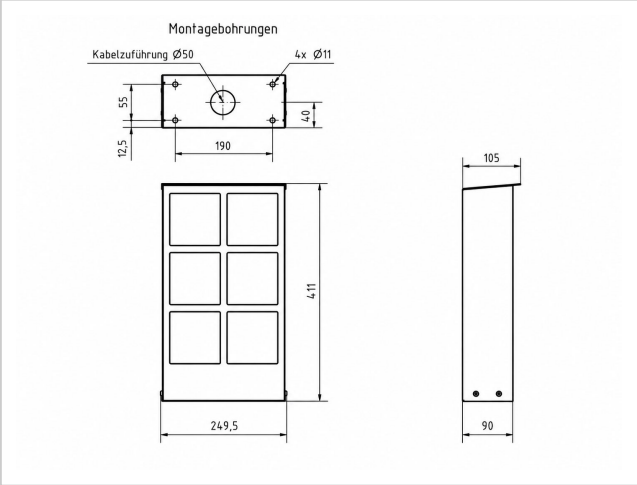

Width in mm	249.5
Height in mm	411
Total width in mm	249.5
Depth in mm	90 | 105
Weight in kg	10
Delivery condition	Delivery is provided fully assembled.
