Product description

Module with data outlet - JUNG UAE 8-8 UPOK6 with hinged cover ES 2990 KL LAN in stainless steel

The modular network module is the ideal complement for modular socket columns and enables a neat integration of network connections directly at the unit. It combines the JUNG data outlet UAE 8-8 UPOK6 with the matching stainless-steel hinged cover ES 2990 KL LAN, including central plate and LAN symbol.

The module has been designed for use in ORDO socket columns. It is inserted into the designated module receptacle and securely fixed. The well thought-out construction allows simple installation and quick replacement of individual modules during maintenance or expansion.
