6-unit freestanding mailbox system Design BASIC 385-7016 ST-R - RAL 7016 anthracite grey | RAL 7016 Anthracite grey, fine texture, matt | 300x110x385 mm (WxHxD) - ?? Normal 12 litres | with 6 mailboxes (1x6)

Product number 385-7016-6S

Product description

Freestanding 6-unit mailbox system BASIC 385 for 6 households – narrow, vertically oriented version – RAL 7016 Anthracite grey

The freestanding BASIC 385 mailbox system for 6 households combines a robust construction with a clear, functional design. It is suitable for multi-family houses, smaller residential complexes as well as office and medical practice buildings and can be positioned independently of the building facade at the property entrance, at a driveway or along the access path.

The S version is vertically oriented and uses the available system width particularly efficiently – ideal for narrower property accesses.

The mailboxes are made of galvanised steel and are powder-coated in RAL 7016 Anthracite grey with a fine-textured matt finish. A close-fitting side cladding with rain canopy unites the individual mailboxes into a closed complete system.

Each compartment features a letterbox aperture of 35 × 265 mm for DIN C4 items in portrait format. A sound-dampening rubber lip reduces impact noise, while the front access doors open from left to right. Each mailbox is supplied with two keys with key number and a replaceable nameplate below the letter flap.

The advantages of the BASIC 385 at a glance

Solid stainless steel support posts

Round-tube support posts of approx. 60 mm diameter in brushed stainless steel V2A 1.4301 form a stable base for the freestanding mailbox system. The robust construction is designed for long-term use at the property entrance.

Large letterbox aperture according to DIN EN 13724

The letterbox aperture of 35 × 265 mm is designed for DIN C4 items in portrait format. Larger envelopes can also be inserted without folding.

Quiet insertion and convenient retrieval

A sound-dampening rubber lip reduces the impact of the letter flaps. Mail is retrieved from the front via doors that open from left to right.

Durable finish in RAL 7016

The matte fine-textured surface in Anthracite grey combines a modern appearance with a durable coating on the galvanised steel.

Proven BASIC quality Made in Germany

The combination of solid material selection, DIN EN 13724-compliant compartments and an installation-friendly construction makes the BASIC 385 a durable solution for daily use.

Equipment of the BASIC 385 mailbox system

Mailbox system

Design Narrow, vertically oriented version
Number of mailboxes 6 separately usable compartments
Mailbox material Galvanised steel
Finish RAL 7016 Anthracite grey fine-textured matt
Rain canopy / side cladding Galvanised steel, powder-coated in RAL 7016 Anthracite grey fine-textured matt
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Mail and operation

Letterbox aperture 35 × 265 mm, suitable for DIN C4 portrait
Letter flaps With sound-dampening rubber lip
Mail retrieval Front access
Door opening From left to right
Keys 2 keys with key number per mailbox
Nameplate Replaceable nameplate below the letter flap
Standard Mailboxes compliant with DIN EN 13724

Support posts and features

Support posts Round tube approx. 60 mm in stainless steel V2A 1.4301, brushed
Mounting options Optionally for bolted installation or for concreting in
Fixings Anchor bolts for bolted installation not included; select separately to match the foundation

Mailbox size and volume

The BASIC 385 is available with different mailbox sizes depending on product configuration. The standard version 300 × 110 × 385 mm offers approx. 12 litres of volume; depending on the variant 300 × 220 × 385 mm with approx. 25 litres of volume is also available.

Installation by concreting in

For the freestanding system we recommend a sufficiently dimensioned concrete foundation. When concreting in, the stainless steel support posts must be set plumb and permanently anchored in the foundation. Foundation size and embedment depth should be matched to the ground conditions, system weight and local circumstances.

Bolted installation on a foundation

For bolted installation a level and load-bearing concrete foundation is required. Suitable anchor bolts or fixings should be selected to suit the substrate and the system load. For the BASIC-385-ST-R variants anchor bolts are not included in the standard scope of delivery.

Note on weather protection

Mail items are best protected from moisture and soiling when fully inserted and with the letter flap closed. Protruding items may prevent the flap from closing completely. In extreme weather conditions, moisture may enter the mailbox despite compliant design.

Product properties

Material	Steel, galvanised, Stainless steel V2A 1.4301
Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), Brushed, RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
Number of boxes	with 6 letterboxes
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Mounting type	Free-standing
Removal of mail	On the front
