Freestanding design parcel box GOETHE with rear access - airlock system - RAL colour of your choice | without mailbox | Rear mail retrieval | Parcel compartment 400x1200x400

Product number 215-STL-PK-PE-H

Product description

Freestanding design parcel box GOETHE® with rear access – transfer chamber system – RAL colour of your choice

Parcel delivery has changed significantly in recent years – today customers expect more flexibility and security than ever before. With the GOETHE® parcel box from Briefkasten Manufaktur, you are choosing an optimal combination of innovative technology and outstanding design, manufactured from high-quality stainless steel and aluminium. Thanks to the retrieval opening at the rear, this parcel box is ideally suited for installation in fences or on property boundaries, allowing you to collect your parcels easily and securely from the inside of your property.

The GOETHE® parcel box features a specially designed delivery compartment (sluice). Once the delivery driver places your parcel in the compartment and closes it, the parcel automatically drops into the secure retrieval box below. After this process the delivery compartment is immediately ready for further deliveries and is automatically isolated from the retrieval box itself, ensuring the highest level of security for your parcels. This construction enables carrier-independent parcel receipt that any delivery service (e.g. DHL, DPD, TNT, GLS, Hermes, etc.) can use. The spacious interior of the GOETHE® parcel box is designed to accommodate the DHL Paket M and even several smaller consignments. Depending on placement, up to four M-sized parcels can be stored simultaneously. Insertion of letters, magazines and catalogues is also possible without issue (no compartment dividers provided).

Briefkasten Manufaktur places particular emphasis on the selection of high-quality materials. The use of stainless steel in the manufacture of the GOETHE® parcel box provides extremely high corrosion resistance and an attractively finished surface. Our quality assurance begins with the selection of our raw material suppliers and only ends when the parcel box is delivered to you in the required quality. Rely on the GOETHE® parcel box for a secure, flexible and stylish solution to your parcel delivery needs. Be convinced by a product that combines traditional craftsmanship with state-of-the-art technology – in keeping with the Briefkasten Manufaktur.

- Base made from 40×40×2 mm stainless steel tube 1.4301 V2A, powder-coated in the RAL colour of your choice.
- Invisible mounting within the post. The overall height is 1.25 m.

Important information

Water protection

To achieve optimal protection of your mail from water, the mailbox or mailbox system should, where possible, be located under a canopy.

Mail items are only protected from water if they are completely placed inside the box and the drop flap is closed. Partially inserted mail allows moisture and dirt to enter the mailbox. This unit is protected against water ingress according to DIN EN 13724. Water ingress is not a reason for complaint.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
