Designer surface-mounted parcel box GOETHE - airlock system - RAL colour of your choice

Product number 215-AP-PK

Product description

Design surface-mounted parcel box GOETHE - airlock system - RAL colour of your choice

Parcel delivery has changed significantly in recent years – today customers expect more flexibility and security than ever before. With the GOETHE parcel box from Briefkasten Manufaktur, you rely on an optimal combination of innovative technology and outstanding design, manufactured from high-quality stainless steel and aluminium.

The surface-mounted parcel box GOETHE offers a specially designed delivery airlock. Once the courier places your parcel inside and the airlock is closed, the parcel automatically falls into the securely locked collection compartment below. After this process the delivery airlock is immediately ready for further deliveries and is independently isolated from the collection compartment itself, guaranteeing the highest level of security for your parcels. A parcel box for easy parcel receipt, carrier-independent parcel acceptance! Any parcel carrier (e.g. DHL, DPD, TNT, GLS, Hermes, or similar) can use this parcel box. The spacious interior of the GOETHE parcel box is designed to accommodate a DHL Paket M and even several smaller parcels. Depending on the placement of DHL Paket size M, up to four such parcels can be stored safely and conveniently. Insertion of letters, magazines and catalogues is also no problem (no compartment separation possible!).

Briefkasten Manufaktur places particular emphasis on the selection of high-quality materials. The use of stainless steel in the manufacture of the GOETHE parcel box ensures extremely high corrosion resistance and an attractively finished surface. Our quality assurance begins with the selection of our raw material suppliers and only ends when the parcel box arrives with you in the required quality. Rely on the GOETHE parcel box for a secure, flexible and stylish solution to your parcel delivery needs. Be convinced by a product that combines traditional craftsmanship with state-of-the-art technology – true to the spirit of Briefkasten Manufaktur.

Protected utility model according to DPMA file number DE: 20 2021 101 679.5

- Innovative push-key lock with 2 keys.
- Retrieval door opens from top to bottom.
- Optimal protection from rain through runoff edges and a rain canopy made of 3 mm aluminium AlMg3 W19, powder-coated in RAL colour of your choice.
- Side cladding made of 3 mm aluminium AlMg3 W19, powder-coated in RAL colour of your choice.
- Includes mounting rail for wall mounting.

Important information

Water protection

To achieve optimal water protection for your mail, the mailbox or mailbox system should, if possible, be located under an overhang.

Mail is only protected from water if it is placed completely inside the box and the insertion flap is closed. Mail that is not fully inserted allows the ingress of moisture and dirt into the mailbox. This system is protected against water ingress according to DIN EN 13724. Water ingress is not a valid reason for complaint.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
