Security free-standing letterbox type 174 - polished stainless steel

Product number 584-O

Product description

Security pillar letterbox type 174 - polished stainless steel

The security free-standing letterbox type 174 is a high-quality pillar solution made of polished stainless steel V2A (1.4301) with increased security standards. It was designed for demanding areas of use where the focus is on both sensitive mail volumes and protection against unauthorised access.

The use of robust V2A stainless steel with a thick wall and front (5 mm / 2.5 mm) ensures that this letterbox is significantly more resistant than standard models. The design provides reliable protection against tampering or external pressure. In addition, the removal door can be opened from left to right and is equipped with toothed plates and steel pins to prevent unauthorised removal - an important security feature in a professional environment.

The **ABUS profile half cylinder (30/10)** enables secure locking and can be easily replaced with another profile cylinder - for example from an existing locking system - if required. With a weight of **approx. 41 kg**, the letterbox offers additional stability and break-in security.

Ideal for banks, tax consultants, car dealerships and public institutions

This security letterbox has been specially developed for institutions where data protection and protection against tampering are top priorities. It is ideal for:

Briefkasten Manufaktur Lippe GmbH
Werler Straße 60
32105 Bad Salzuflen

- **Banks and savings banks:** secure posting of confidential documents, transfers or keys outside business hours. The robust stainless steel construction guarantees protection against unauthorised access.
- **Tax consultants, law firms and auditors:** Ideal for the secure handover of client documents, contracts or receipts. The letterbox provides reliable protection against unauthorised access and unnoticed removal.
- **Car dealerships and garages:** Perfectly suited for the secure handover of keys or documents. The solid construction ensures durability, even in heavily frequented locations.
- **Municipalities and public institutions:** An ideal collection point for citizens' mail, applications or official documents. The type 174 is robust, weather-resistant and has a prestigious appearance.

Technical data at a glance

- Security features: Toothed plates and steel pins to prevent unauthorised removal
- Lock: ABUS profile half cylinder 30/10, replaceable
- Removal direction: from left to right
- Weight: approx. 41 kg
- Installation type: Floor-standing letterbox with concealed floor fixing

Important information:

To achieve optimum water protection for your mail, the letterbox or letterbox system should be located under a canopy if possible.

The mail is only protected from water if it is fully inserted in the box and the flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the letterbox. This system is protected against the ingress of water in accordance with DIN EN 13724. Water ingress is not a reason for complaint.

Product properties

Mounting type	Free-standing
Material	Stainless steel V2A 1.4301
Removal of mail	On the front
Number of boxes	with 1 letterbox
Boxes by volume	Jumbo > 30 litres
Surface/colour	Brushed
