# Freestanding parcel letter box KÄSTNER ST-R - Design One - RAL 9005 jet black - rear removal

**Product number** 304-STR-9005

## Product description

## Freestanding parcel letterbox KÄSTNER ST-R - Design One - RAL 9005 jet black - rear removal

Get a modern and extremely robust solution for your daily parcel acceptance - ideal for single-family homes as well as commercial properties. The free-standing parcel letterbox made of galvanised steel has a high-quality powder coating in RAL 9005 deep black (fine structure matt), which ensures an elegant look and maximum weather protection. The finely polished stainless steel front panel can be customised using UV and weather-resistant laser engraving and gives the parcel box a personal, professional touch - perfect for private addresses or company logos.

The spacious parcel compartment with a volume of around 70 litres offers sufficient space for items up to 375 × 295 × 160 mm. Thanks to the large insertion flap and reliable airlock technology, several parcels can be securely inserted one after the other. High-quality axle dampers ensure almost silent closing. The door is located at the rear for discreet and protected removal - ideal for securely storing deliveries in both private and commercial environments. With the two keys supplied, the contents remain reliably secured at all times.

The model is particularly flexible thanks to its stand elements made of robust V2A stainless steel in a choice of lengths. These enable optimum adaptation to different installation locations and ensure an ergonomic removal height - regardless of whether the box is located in a front garden, on a property boundary or in front of a company building. In addition, you can choose between screwing it on or setting it in concrete, which means that the parcel letterbox can be installed both temporarily and permanently in an extremely stable manner. The sophisticated design guarantees uncomplicated self-assembly and makes receiving parcels more convenient than ever for both private and commercial use.

Thanks to the design, self-assembly is uncomplicated.

- High-quality, free-standing parcel box made of galvanised steel, powder-coated in RAL 9005 deep black fine structure matt.
- Stainless steel cover, polished to 240 grit. Customised UV and weather-resistant laser engraving.
- Parcel compartment volume: approx. 70 litres, max. Parcel dimensions: 375x295x160 mm (WD).
- Large insertion flap with airlock technology for multiple parcel insertion.
- Insertion from above, insertion flap with high-quality axle dampers for silent closing.
- Parcels/mail are removed from the rear. The door can be opened from left to right.
- Includes 2 keys with key number.
- The stand elements are made of 60.3 mm V2A stainless steel 1.4301, 240 grain polished for screw mounting or setting in concrete.

**Important information:**

In order to achieve optimum water protection for your parcels, the parcel box or parcel box system should be located under a canopy if possible.

The parcel is only protected from water if it is completely placed in the box and the flap is closed. Parcels that are not fully inserted allow moisture and dirt to enter the parcel box. Water ingress is not a reason for complaint.

## Product properties

| | |
|---|---|
| **Material** | Steel, galvanised, Stainless steel V2A 1.4301 |
| **Surface/colour** | RAL 9005 deep black, Brushed |
| **Functions** | Newspaper compartment, Parcel compartment |
