Product description

5-unit surface-mounted stainless steel letterbox Design BASIC Plus 382XA AP - stainless steel V2A, brushed

High-quality surface-mounted letterbox for five households, made in Germany by Briefkasten Manufaktur.

The complete surface-mounted letterbox system is made of stainless steel V2A, brushed. The very high-quality workmanship and the well-thought-out concept make this letterbox system one of our bestsellers. A rain drip edge for optimal water protection, a continuous rubber lip for quiet insertion, a robust interchangeable nameplate, a practical post retention bracket and a very durable lock characterise this surface-mounted letterbox system.

The letterbox systems of the BASIC Plus collection are distinguished by the consistent use of stainless steel V2A. The result is very high durability and sustainability. The construction has been developed by our own engineers with a focus on high flexibility/modularity, simple spare-part assembly and straightforward self-installation. Spare parts for all BASIC Plus systems are directly available.

Thanks to the design, self-installation is uncomplicated. The letterbox system is prepared for straightforward complete mounting, so there is no need for complex wall mounting of individual boxes.
