Freestanding Designer Parcel Box GOETHE - Airlock System - RAL Colour of Your Choice | without mailbox | Rear mail retrieval | Parcel compartment 600x1200x400

Product number 215-STL-PK600-PE-H

Product description

Freestanding design parcel box GOETHE® - delivery airlock system - RAL colour to order

Parcel delivery has changed significantly in recent years – today customers expect more flexibility and security than ever before. With the GOETHE® parcel box from Briefkasten Manufaktur, you rely on an optimal combination of innovative technology and outstanding design, manufactured from high-quality stainless steel and aluminium.

The GOETHE® parcel box features a specially designed delivery airlock. Once the courier places your parcel inside and the airlock is closed, the parcel automatically falls into the locked collection compartment below. After this process the delivery airlock is immediately ready for further deliveries and is isolated from the collection compartment, guaranteeing the highest level of security for your packages. A parcel box for easy receipt of deliveries, independent of the carrier! Any parcel carrier (e.g. DHL, DPD, TNT, GLS, Hermes, etc.) can use this parcel box. The spacious interior of the GOETHE® parcel box is designed to accommodate a DHL parcel size M and several smaller parcels. Depending on the placement of a DHL parcel size M, up to four such parcels can be stored safely and conveniently. Insertion of letters, magazines and catalogues is also possible (no compartment separation possible).

Briefkasten Manufaktur places special emphasis on the selection of high-quality materials. The use of stainless steel in the manufacture of the GOETHE® parcel box ensures extremely high corrosion resistance and an attractively finished surface. Our quality assurance begins with the selection of our raw material suppliers and only ends when the parcel box reaches you in the required quality. Rely on the GOETHE® parcel box for a secure, flexible and stylish solution to your parcel delivery needs. Discover a product that combines traditional craftsmanship with state-of-the-art technology – in the spirit of Briefkasten Manufaktur.

- Rear panel made from 1mm stainless steel 1.4301 V2A, powder-coated in RAL colour to order.
- Base made from 40x40x2mm stainless steel tube 1.4301 V2A, powder-coated in RAL colour to order.
- Invisible mounting within the post. The overall height is 1.25 m.

Important information

Water protection

To achieve optimal protection of your post from water, the mailbox or mailbox system should, where possible, be located under a canopy.

Mail is protected from water only if it is placed completely inside the box and the drop flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the mailbox. This unit is protected against water ingress in accordance with DIN EN 13724. Water ingress is not a reason for complaint.
