The letterbox is made entirely of stainless steel V2A, powder-coated in a RAL colour. The very high-quality workmanship and the well thought-out concept make this flush-mounted letterbox one of our top sellers. A rain drainage edge for optimal water protection, a continuous rubber lip for quiet insertion, the solid interchangeable nameplate, a practical mail retention bracket and the very robust lock characterise this flush-mounted letterbox. The flush-mount frame made of stainless steel V2A is equipped with a sponge rubber seal and guarantees very high durability.

The letterbox systems of the BASIC Plus collection are characterised by the consistent use of stainless steel V2A. The result is very high longevity and sustainability. The design has been developed by our own engineers with a focus on high flexibility and modularity, easy spare-part assembly and straightforward self-installation.
