Product description

6-unit 3x2 Stainless Steel Surface-Mounted Mailbox Design BASIC Plus 382XA AP - Stainless Steel V2A, brushed

High-quality surface-mounted mailbox for 6 units made in Germany by Briefkasten Manufaktur.

The complete surface-mounted mailbox system is made of stainless steel V2A, brushed. The very high-quality workmanship and the well thought-out concept make this mailbox system one of our top sellers. A rain runoff edge for optimal water protection, a continuous rubber lip for quiet insertion, the solid interchangeable name plate, a practical mail retention bar and the very robust lock characterise this surface-mounted mailbox system.

The mailbox systems of the BASIC Plus collection are defined by the consistent use of stainless steel V2A. The result is very high durability and sustainability. The construction has been developed by our own engineers with a view to high flexibility and modularity, simple spare-part installation and straightforward self-assembly. Spare parts for all BASIC Plus systems are readily available.

Thanks to the design, self-assembly is uncomplicated. The mailbox system is prepared for straightforward complete installation, so no elaborate wall mounting of individual boxes is required.
