Single surface-mounted mailbox system BASIC - Edition NELLY - Bi-colour stainless steel RAL 7016 anthracite grey | with 1 mailbox

Product number 382A-7016VA-BS-1

Product description

Single surface-mounted mailbox system BASIC – Edition NELLY – BI-Colour stainless steel / RAL 7016 anthracite grey

"Everything begins with longing." – Nelly Sachs

The Edition NELLY combines the proven BASIC mailbox technology with a distinctly more individual appearance. The mailbox body is made from galvanised steel and is powder-coated in RAL 7016 anthracite grey fine structure matt, while the insertion flaps are made from stainless steel V2A 1.4301 with a 240-grit brushed finish. This deliberate BI-Colour contrast appears modern and high-quality and can be combined with many front doors, windows and façades. As a surface-mounted version with 1 mailbox, NELLY is not only intended for mail collection but as a neatly designed element of the entrance area. The flush-fitting side cladding with weather protection hood visually frames the unit and at the same time provides the surface for the characteristic NELLY nameplate panel.

The special advantages of the Edition NELLY

NELLY nameplate panel – house number and street name

The distinctive NELLY detail is the mounted nameplate panel on the weather protection hood. It is personalised with your individual laser engraving and turns the mailbox unit into a personal element of the entrance area – house number and street name are clearly integrated into the overall design.

BI-Colour: RAL 7016 meets brushed stainless steel

The mailbox body made from galvanised steel is powder-coated in RAL 7016 anthracite grey fine structure matt. The insertion flaps, by contrast, are made from stainless steel V2A 1.4301 and are finished with a 240-grit brush. The weather protection hood and side cladding are also made from stainless steel V2A and powder-coated.

Large insertion for DIN C4

The 35 × 325 mm insertion opening is designed for DIN C4 in landscape format. Larger letters can also be inserted without folding. The mailbox version complies with DIN EN 13724.

Quiet operation in everyday use

The brushed stainless steel insertion flaps are fitted with a noise-damping rubber seal. A mail retention bar supports controlled removal, while the doors open from left to right.

Robust 1.5 mm stainless steel cladding

The weather protection hood and side cladding are made from 1.5 mm thick stainless steel V2A 1.4301 and powder-coated. This gives the surface-mounted unit a neatly framed, robust construction and additionally protects the mailbox unit in daily use.

Equipment and technical features

Material and mailbox

Configuration 1 mailbox
Mailbox body Steel, galvanised; RAL 7016 anthracite grey fine structure matt
Insertion flaps Stainless steel V2A 1.4301, 240-grit brushed finish
Insertion opening 35 × 325 mm, DIN C4 landscape
Standard DIN EN 13724

NELLY design and operation

Labelling Individual laser engraving in BML Lasercut lettering
Nameplate Interchangeable nameplate under the insertion flap
Mail retention bar Integrated per mailbox
Mail removal From the front
Door opening From left to right
Locking system Depending on the chosen product configuration

Installation and construction

Type of installation Surface-mounted wall installation
Cladding Weather protection hood + side cladding made from 1.5 mm stainless steel V2A 1.4301, powder-coated
Nameplate panel Mounted panel on the weather protection hood with individual laser engraving
Installation Mounting rail including fixings for wall installation
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on weather protection

Items are best protected against moisture and dirt when fully inserted and with the insertion flap closed. Protruding items can prevent the flap from closing completely.

Note on wall installation

Before installation, the load-bearing capacity and condition of the wall must be checked. The fixings must be suitable for the existing wall construction and the weight of the unit.

Product properties

Material	Steel, galvanised, Stainless steel V2A 1.4301
Series	BASIC
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
House number	House number as laser engraving
Removal of mail	On the front
Number of boxes	with 1 letterbox
Mounting type	Surface-mounted
