Product number 382XU-VA-10-SPS-150-R

Product description

10-unit stainless steel recessed letterbox system BASIC Plus 382XU UP with side bell box - brushed stainless steel

Modern recessed letterbox for 10 households - made in Germany by Briefkasten Manufaktur.

The letterbox is made entirely of stainless steel V2A, brushed. The very high-quality workmanship and the well thought-out concept make this recessed letterbox one of our top sellers. A drip edge for optimal water protection, a continuous rubber lip for quiet letter insertion, a solid interchangeable nameplate, a practical mail retention bracket and a very robust lock characterise this recessed letterbox. The recessed frame made of stainless steel V2A is equipped with a foam rubber seal and guarantees very high durability.

The letterbox systems of the BASIC Plus collection are characterised by the consistent use of stainless steel V2A. The result is very high durability and sustainability. The construction has been developed by our own engineers with a view to high flexibility/modularity, easy spare-part installation and uncomplicated self-installation. Spare parts are readily available for all BASIC Plus systems.

- The universal adapter is suitable for all common built-in speakers (Siedle, Ritto, TCS, Busch-Jäger, Gira, Legrand Bticino, ELCOM, Auerswald, Comelit, etc.).
- Preparation (camera not included) for a camera.
- 10 x round stainless-steel doorbell push-buttons Type: Grothe Protact, max. 24 V AC/DC, 1.5 A, IP54 (pressure-force limitation).
- Interchangeable nameplate (Type 2), changeable from the front.
- Render cover frame made from stainless-steel angle profile 25 x 58 mm, 240-grit brushed.

Camera or intercom station preparation

We always recommend that electrical installation be carried out by a qualified electrician.

We offer preparation for cameras & intercom stations from various manufacturers for our letterboxes. The preparation does not include end devices; it consists of providing the mounting points, drillings & openings so that you can install your end device without any problems.

Water protection

To achieve optimal water protection for your mail, the letterbox or letterbox system should, where possible, be located under a porch or canopy.

Mail is only protected from water if it is placed completely inside the box and the mail flap is closed. Partially inserted mail allows moisture and dirt to enter the letterbox. Therefore, it is necessary to plan letterboxes of sufficient size for the expected needs. Under certain extreme weather conditions, water may still enter (according to DIN EN 13724 up to 1 cm^3). This is not a reason for complaint.

Product properties

Series	BASIC
Number of bell push buttons	10 buttons
Functions	Light button, Intercom
Functional box prepared for manufacturer	GIRA, Busch Jaeger, Siedle, STR Elektronik, ELCOM, TCS, Ritto, ALGO, Telegärtner, Auerswald, Legrand Bticino, Comelit
Name labelling	Nameplate
Material	Stainless steel V2A 1.4301
Removal of mail	On the front
Number of boxes	with 10 letterboxes
Surface/colour	Brushed
Boxes by volume	Large > 16 litres
Mounting type	Flush-mounted

Dimensions

Height of single box in mm	330.0
Width of single box in mm	355.0
Capacity in litres	12.0 | 17.0
Height of letterbox slot in mm	35.0
Width of letter slot in mm	325.0
Height of letterbox in mm	710.0
Width of letterbox system in mm	1995.0
Total width in mm	1995.0
Depth in mm	100.0 | 150.0
Weight in kg	52
Delivery condition	Delivered fully assembled.
