

# Design letterbox SCHILLER SMALL VAR-OZ - stainless steel V2A, powder-coated in RAL 6009 fir green

**Product number** 999OU-037

## Product description

### SCHILLER SMALL VAR-OZ design letterbox - V2A stainless steel, powder-coated in RAL 6009 fir green

Discover our high-quality stainless steel designer letterbox for wall mounting, ideal for any modern home or office. This letterbox combines aesthetic elegance with functional robustness and is powder-coated in RAL 6009 fir green.

The front panel is made of 2 mm thick stainless steel. The 1.25 mm thick stainless steel body offers optimum rust protection and is also available in the colour of your choice. Our letterbox is equipped with a high-quality side lock and includes 2 keys with key number. It is available with a left-hinged door (lock on the right), which enables one-handed operation. The top letter slot is ideal for C4 envelopes and provides optimum protection for your mail from the weather. In addition, the letter insertion flap is fitted with rubber buffers to prevent annoying rattling. As a special service, we offer the option of personalising your letterbox with an optional name or house number inscription. This is laser-engraved approx. 8-25 mm high (name) or 60-100 mm high (house number).

The dimensions of the letterbox body are 335x320 mm (height x width), those of the front panel 360x340 mm (height x width). Each letterbox system comes with 2 keys as standard as well as the necessary stainless steel mounting material for simple and secure installation.
