

Design flush-mounted letterbox GRIMM - polished stainless steel - GIRA System 106 - 3-gang prepared | Gira System 106 prepared | Top | Stainless steel, ground | Flush-mounted

Product number 562-UP-SPO-1-VA-GI106V

Product description

Design letterbox GRIMM® - A masterpiece of the letterbox manufactory

The GRIMM flush-mounted designer letterbox combines modern design with first-class workmanship - ideal for discerning building owners and architects who are looking for an elegant solution for integrating the Gira System 106. Manufactured from high-quality stainless steel and completely "Made in Germany" by the letterbox manufacturer Lippe, this model stands for durability, functionality and stylish appearance. The polished front panel made of 2 mm stainless steel V2A (1.4301) impresses with its timeless appearance and high corrosion resistance. The flush-mounted design enables seamless integration of up to three GIRA 106 system modules (not included in the scope of delivery) via a sophisticated mounting system. The optional surface-mounted housing (5503910) is required for mounting the Gira components.

The GRIMM® letterbox is not only a visual highlight, but also at the forefront in terms of functionality and quality. Thanks to the innovative push-key lock, the letterbox can be operated easily and conveniently with one hand. Open the door with one push and close the door without using a key. The lock is optimally protected from the weather. The letterbox also offers an intelligent removal system: the door opens from top to bottom, ensuring that the mail remains securely in the box and cannot fall towards you. Mail is also conveniently inserted from the front, with high-quality axle dampers ensuring that the flap closes gently. The GRIMM is particularly unique thanks to its double box system: the flush-mounted box can be installed during the shell construction phase, while the front panel is only fitted once the construction work has been completed - for maximum flexibility in the future and protection from dirt and dust during the construction phase. The plaster box is made of stainless steel and has pre-punched cable inlets on all sides to allow easy electrical installation.

Thanks to the DIN/EN 13724 standard, the GRIMM is ideal for large letters in C4 format, which can be inserted without creasing. The GRIMM® letterbox impresses with its durable quality, timeless design and sophisticated functionality.

- High-quality letterbox made entirely of stainless steel for flush mounting.
- Front panel made of 2 mm stainless steel V2A 1.4301, polished.
- Quality production - Made in Germany by Briefkasten Manufaktur Lippe.
- The Gira System 106 can be used seamlessly in a flush-mounted design. The preparation is intended for 3 GIRA 106 system modules. The modules can be flush-mounted using the simple mounting system (surface-mounted housing 5503910 required!). WITHOUT GIRA system components!
- Innovative push-key lock including 2 keys with key number, convenient locking without key, optimally protected from the weather.
- The removal door with opening limiter opens from top to bottom to prevent mail from falling towards you.
- Front mail slot with high-quality axle dampers for very quiet mail insertion.
- DIN/EN 13724-compliant letterbox, insertion size (3.5 cm x 32.5 cm) for C4 landscape - even large letters remain intact. Additional stainless steel removal protection integrated.
- Optimum weather protection thanks to offset cover.
- Double box system: Ideal for flush mounting. The cover can be easily installed once the construction work is complete.
- Plaster box made of stainless steel ##### (stainless, magnetic stainless steel) with pre-punched cable inlets on all sides.

Important information:

To achieve optimum water protection for your mail, the letterbox or letterbox system should be located under a canopy if possible.

The mail is only protected from water if it is completely placed in the box and the flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the letterbox. This system is protected against the ingress of water in accordance with DIN EN 13724. Water ingress is not a reason for complaint.

Product properties

| | |
|---|---|
| Series | GRIMM |
| Functions | Camera, Intercom, Fingerprint, Keypad |
| Functional box prepared for manufacturer | GIRA |
| Material | Stainless steel V2A 1.4301, Stainless steel 1.4016 (non-rusting magnetic stainless steel) |
| Removal of mail | On the front |
| Number of boxes | with 1 letterbox |
| Surface/colour | Brushed |
| Boxes by volume | Large > 16 litres |
| Mounting type | Flush-mounted |
