## Product description

### Stainless steel fence letterbox BASIC Plus 382XZ with closed newspaper compartment & bell box for intercom - polished stainless steel - rear removal

High-quality fence letterbox from Briefkasten Manufaktur with bell box for intercom (optional camera) and closed newspaper compartment, operated with a toggle lock. The post is inserted from the front and residents can remove the post from the back. The letterbox can be attached to your fence using the optional bar mat fastening; if this is not selected, the letterbox should be fitted and perforated on site by your fence builder. The complete fence letterbox is made of weather-resistant stainless steel V2A 1.4301, 240 grain polished. A rain drainage edge for optimum water protection, a throw-in flap with rubber buffer, the solid interchangeable nameplate, a practical post holder and the very robust lock characterise this stainless steel letterbox.

The letterbox systems in the BASIC Plus collection are characterised by the consistent use of V2A stainless steel. The result is a very long service life and sustainability. The design has been developed by our own engineers with a view to high flexibility and modularity, simple spare parts assembly and uncomplicated self-assembly. Spare parts are directly available for all BASIC Plus systems.
