

# GOETHE MDW design letterbox - RAL of your choice - DoorBird video intercom system | 300-390mm depth

**Product number** 215-MDW-1-SP-DB-390

## Product description

### GOETHE MDW design flush-mounted letterbox - RAL of your choice - DoorBird video intercom system

The modern GOETHE wall letterbox with a seamlessly integrated DoorBird IP Video Door Station D2100E or D1100E in a flush-mounted design. The DoorBird IP Video Door Station D2100E or D1100E is the smart solution for your entrance door. The IP video door station can be operated as a stand-alone unit or integrated into an existing smart home platform. Existing, classic installations such as a door chime or an electric door and gate opener can also continue to be used with DoorBird and controlled via the app.

Thanks to the variable shaft length of between 300mm and 390mm or 390mm and 560mm, this letterbox can be installed in almost all types of masonry.

The dimensions of the individual boxes allow a capacity of approx. 24-44 litres, and the large slot guarantees no crumpled mail, even with DIN C4 envelopes and magazines or after several days of absence. Thanks to the water drainage edge, the mail inside is optimally protected from the weather. The insertion flap is fitted with high-quality axle dampers, guaranteeing quiet closing and preventing annoying rattling caused by the weather.

The letterbox systems in the GOETHE collection are characterised by the consistent use of stainless steel. The result is a very long service life and sustainability. The design has been developed by our own engineers with a view to high flexibility and modularity, simple spare parts assembly and uncomplicated self-assembly. Spare parts for all GOETHE systems are available directly in our shop.

Thanks to the design, self-assembly is uncomplicated.

**Protected utility model according to DPMA file number DE: 20 2021 101 679.5**

- High-quality, stainless steel letterbox.
- Shaft made of 1.4016 stainless steel (magnetic stainless steel), bright.
- Body made of stainless steel 1.4016 (stainless magnetic stainless steel), powder-coated in RAL colour of your choice.
- Quality production - Made in Germany by Briefkasten Manufaktur Lippe.
- The letterbox complies with DIN/EN 13724. Insertion size (3.5 cm x 36.0 cm) for C4 landscape, large letters also fit in here without creasing.

- External dimensions front W 450mm x H 650mm; rear W 450mm x H 250mm.

## Important information

Camera or intercom preparation

**The intercom systems must be connected by an electrician. Please contact your trusted electrician for planning, fitting and installation.**

Water protection

To achieve optimum water protection for your mail, the letterbox or letterbox system should be located under a canopy if possible.

The mail is only protected from water if it is fully inserted in the box and the flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the letterbox. This system is protected against the ingress of water in accordance with DIN EN 13724. Water ingress is not a reason for complaint.

## Product properties

<b>Surface/colour</b>	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
