

Mobotix AudioMount MX-FLEX-OPT-AM-BL prepared (without camera)

Product number BML-9810-VI15

Product description

We offer the preparation of cameras & intercom stations from various manufacturers for our letterboxes. The preparation does not include any end devices, but only the provision of screw mounts, drill holes and perforations. So that you can mount your end device without any problems.

Perforation for manufacturer: Mobotix

Perforation for article: MX-FLEX-OPT-AM-BL

No additional cut-out for built-in speakers is required for this camera preparation. Due to the height of this component, buttons/nameplates move to the left or right. The camera/audio mount is not included!
