

Installation service for free-standing systems | Region DE Plz 30xxx-33xxx

Product number BML-AUF-FS-30-33

Product description

Thanks to our qualified employees and partner companies, we can offer you an on-site installation service. Once your order has been completed, we will contact you to arrange an appointment.

Please note:

Dry construction, electrical and ground work (foundations) must be carried out on site! All earthworks (foundations) and electrical work (underground cables) must be completed by the agreed assembly date! If assembly is not possible, additional costs will be incurred for a second journey.

We currently only offer this service within Germany for postcode areas 3xxxx-4xxxx.
