Product number 325B-R-V-GI106-7016

## Product description

### Stainless steel free-standing letterbox Designer BIG - RAL of your choice GIRA System 106 - 3-gang prepared

High-quality letterbox from the Briefkasten Manufaktur brand in an extra-large format. The Gira System 106 can be used seamlessly in a flush-mounted design. The preparation is intended for 3 GIRA 106 system modules. The modules can be flush-mounted using the simple mounting system (surface-mounted housing 5503910 required!).

This is a real eye-catcher among letterboxes. Clear lines and no-frills design characterise the designer letterbox with GIRA System 106. Our products have a high quality, reliable functionality and their own identity. Made by Briefkasten Manufaktur.

- Designer stainless steel free-standing letterbox with letterbox made of 2 mm V2A stainless steel. Front panel, powder-coated to RAL colour.
- Front mail removal door 320 mm x 300 mm, opens from top to bottom. Incl. 2 keys with key number.

- **Now with built-in damping elements that allow the flap to close slowly and quietly.**
- Dimensions Surface-mounted box made of V2A stainless steel, ground on all sides: H 710 mm x W 410 x D 100. protruding front panel!
- The uprights are made of 60.3 mm stainless steel V2A 1.4301, polished. Invisible cable routing through the uprights.
- **WITHOUT GIRA system components!**

## Important information

Camera or intercom preparation

**The intercom systems must be connected by an electrician. Please contact your trusted electrician for planning, fitting and installation.**

Water protection

To achieve optimum water protection for your mail, the letterbox or letterbox system should be located under a canopy if possible. If you install this system completely free-standing, we recommend using a rain canopy. Tight-fitting self-adhesive rain cover enclosed.

The mail is only protected from water if it is fully inserted in the box and the flap is closed. Mail that is not fully inserted allows moisture and dirt to penetrate the letterbox. It is therefore necessary to plan sufficiently dimensioned letterboxes for the upcoming requirements. In certain extreme weather conditions, water can still enter (up to 1ccm according to DIN EN 13724). This is not a reason for complaint.

## Product properties

Series	DESIGNER
Functions	Newspaper compartment
