

Stainless steel letterbox designer model BIG - Lateral with DoorBird video intercom - RAL of your choice | Left | Surface-mounted box 100mm for wall mounting

Product number 592D-B-VAR-KSDB-L-AP100

Product description

Stainless steel letter box designer model BIG - Sideways with DoorBird D2100E or D1100E video intercom - RAL of your choice - VIDEO set

High-quality manufactured letterbox of the brand Briefkasten Manufaktur in extra large format. Integrated DoorBird IP Video Door Station D2100E or D1100E. The DoorBird IP Video Door Station D2100E or D1100E is the smart solution for your entrance door. The IP video door station can be operated as a stand-alone unit or integrated into an existing smart home platform. Existing, classic installations such as a door chime or an electric door and gate opener can also continue to be used with DoorBird and controlled via the app.

This is a real eye-catcher among letterboxes. Clean lines and no-frills design characterise the designer letterbox. Our products have a high quality, reliable functionality and their own identity. Made by Briefkasten Manufaktur. The DoorBird was not only invented and developed in Germany, but is still produced in Berlin today. At DoorBird, "Made in Germany" is not just a seal, but a philosophy that is lived and breathed. The IP video door stations are manufactured in the DoorBird factory to guarantee the highest quality, durability and customer satisfaction.

- Designer stainless steel flush-mounted letterbox made of 2 mm stainless steel V2A, powder-coated to RAL fine structure matt. Also available as a surface-mounted version.
- Front mail removal door 350 mm x 300 mm, opens from top to bottom. Incl. 2 keys with key number.

- Incl. DoorBird IP video door station D2100E or D1100E installed.

Important information

Camera or intercom preparation

The intercom systems must be connected by an electrician. Please contact your trusted electrician for planning, fitting and installation.

Water protection

To achieve optimum water protection for your mail, the letterbox or letterbox system should be located under a canopy if possible.

The mail is only protected from water if it is fully inserted in the box and the flap is closed. Mail that is not fully inserted allows moisture and dirt to penetrate the letterbox. It is therefore necessary to plan sufficiently dimensioned letterboxes for the upcoming requirements. Under certain extreme weather conditions, water can still enter (up to 1ccm according to DIN EN 13724). This is not a reason for complaint.
