Product description

Blank module for ORDO socket column

The modular socket outlet module is the perfect addition for modular socket outlet columns and enables flexible, needs-orientated equipping of the power distribution. It has been specially designed for use in ORDO socket outlet columns.

The socket outlet module is designed for easy installation. It is inserted into the module holder provided in the socket outlet pillar and securely fixed in place. The sophisticated design allows individual modules to be replaced quickly, reducing downtimes and enabling extensions to be implemented efficiently.
