Product description

12-point stainless steel flush-mounted letterbox system BASIC Plus 382XU UP with bell box on the side - RAL of your choice

Modern flush-mounted letterbox for 12 parties - made in Germany by Briefkasten Manufaktur.

The letterbox is made entirely of stainless steel V2A, powder-coated in RAL colour. The very high-quality workmanship and the well thought-out concept make this flush-mounted letter box our top seller. A rain drainage edge for optimum water protection, a continuous rubber lip for quiet insertion, the solid interchangeable nameplate, a practical post holder and the very robust lock characterise this flush-mounted letterbox. The flush-mounted frame made of V2A stainless steel is fitted with a foam rubber seal and guarantees a very long service life.

The letterbox systems in the BASIC Plus collection are characterised by the consistent use of V2A stainless steel. The result is a very long service life and sustainability. The design has been developed by our own engineers with a view to high flexibility and modularity, simple spare parts assembly and uncomplicated self-assembly. Spare parts are directly available for all BASIC Plus systems.

We offer the preparation of cameras and intercoms from various manufacturers for our letterboxes. The preparation does not include any end devices, but only the provision of screw mounts, drill holes and perforations. So that you can mount your end device without any problems.

Water protection

To achieve optimum water protection for your mail, the letterbox or letterbox system should be located under a canopy if possible.

The mail is only protected from water if it is fully inserted in the box and the flap is closed. Mail that is not fully inserted allows moisture and dirt to penetrate the letterbox. It is therefore necessary to plan sufficiently dimensioned letterboxes for the upcoming requirements. In certain extreme weather conditions, water can still enter (up to 1ccm according to DIN EN 13724). This is not a reason for complaint.
