

8-piece stainless steel letterbox system Design BASIC Plus 385XW for side wall mounting - RAL of your choice | with 8 letterboxes

Product number 385XW-8S

Product description

8-point stainless steel letterbox system Design BASIC Plus 385XW for side wall mounting - RAL of your choice

Modern stainless steel letterbox system for side wall mounting for 8 parties - made in Germany by Briefkasten Manufaktur.

The letterboxes are made of stainless steel V2A 1.4301, powder-coated in RAL colour, the fastening elements are made of weather-resistant stainless steel V2A 1.4301, 240 grit polished. The very high-quality workmanship and the well thought-out concept make this letterbox system our top seller. A rain drainage edge for optimum water protection, a throw-in flap with rubber lip, the solid interchangeable nameplate and the robust lock characterise this free-standing letterbox. This letterbox is easy to clean and robust.

The letterbox systems in the BASIC Plus collection are characterised by the consistent use of V2A stainless steel. The result is a very long service life and sustainability. The design has been developed by our own engineers with a view to high flexibility and modularity, simple spare parts assembly and uncomplicated self-assembly. Spare parts are directly available for all BASIC Plus systems.

- 8 letterbox system made of stainless steel V2A 1.4301 for side wall mounting.
- The system is manufactured by Briefkasten Manufaktur. German quality production "Made in Germany".
- The letterboxes made of stainless steel V2A 1.4301, powder-coated in RAL/DB colour comply with DIN/EN 13724. Insertion size (3.5 cm x 26.5 cm) for C4 high, large letters also fit in here without creasing.
- Insertion flaps with sound-absorbing rubber lip for very quiet insertion of mail.
- The doors can be opened from left to right.
- Incl. 2 keys with key number and changeable name plate under the flap for each letterbox.
- Incl. close-fitting side cladding + rain cover made of stainless steel V2A 1.4301, powder-coated in RAL colour.
- Optional house number labelling, lasered approx. 100-150 mm high.
- The mounting pillars are made of 60.3 mm stainless steel V2A 1.4301, 240 grit polished for screw mounting on the house wall.

Important information:

The post is only protected from moisture and dirt when it is fully inserted and the flap is closed. Under certain extreme weather conditions, water can still get in (up to 1ccm according to DIN EN 13724). This is not a reason for complaint.

Ideally, side systems should be installed using bolt anchors, which are not included in the scope of delivery! The bolt anchors or hanger bolts should be selected by the installer according to the wall conditions.
