Product description

Module with add-on socket outlet - Mennekes 1797 - CEE 32A 5p 400V

The modular socket outlet module is the perfect addition for modular socket outlet pillars and enables flexible, needs-based equipping of the power distribution. It has been specially designed for use in ORDO socket outlet columns.

The socket outlet module is designed for easy installation. It is inserted into the module holder provided in the socket outlet pillar and securely fixed in place. The sophisticated design allows individual modules to be replaced quickly, reducing downtimes and enabling extensions to be implemented efficiently.
