

# Pedestal letterbox LESSING Edition - Design Elegance 2 - DB 703 micaceous iron ore | DB 703 iron mica fine structure matt

**Product number** 306-E2-DB703VA-STL

## Product description

### LESSING Edition letterbox - Design Elegance 2 - DB 703 micaceous iron ore

The LESSING Edition free-standing letterbox combines elegant, minimalist design with functional excellence. Equipped with an invisible lock and stylish labelling option, it blends seamlessly into any modern living environment. The use of galvanised steel, powder-coated, as well as a stainless steel cover, guarantees long-lasting quality and durability.

With a capacity of approx. 19 litres and a top-access slot, the LESSING Edition ensures that your mail remains crease-free. The flap is equipped with high-quality axle dampers that allow it to close gently. The simple self-assembly and optional personalisation make it the ideal letterbox for discerning users who value design, quality and convenience.

Thanks to the design, self-assembly is uncomplicated.

- High-quality letterbox column made of galvanised steel, powder-coated in DB 703 micaceous iron ore fine structure matt.
- Elegance 2 design: Narrow stainless steel panel, 240 grit polished.
- The door can be opened from top to bottom.
- Insertion from above, insertion flap with high-quality axle dampers for silent closing.
- Includes 2 keys with key number.
- The letterbox complies with DIN/EN 13724. Insertion size (3.5 cm x 33.5 cm) for C4 landscape, even large letters fit in here without creasing.
- Generous capacity of approx. 19 litres.
- Optional name labelling approx. 8-25 mm high.
- Letterbox pillar with base plate for screw mounting.

#### Important information:

To achieve optimum water protection for your mail, the letter box or letter box system should be located under a canopy if possible.

The mail is only protected from water if it is completely placed in the box and the flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the letterbox. This system is protected against the ingress of water in accordance with DIN EN 13724. Water ingress is not a reason for complaint.
