## Product description

### Pedestal letterbox design BASIC 381-K7016-ZFG with closed newspaper compartment - anthracite grey RAL 7016 optionally with rain cover

The BASIC free-standing letterbox with closed newspaper compartment, operated with a toggle lock.

The letterbox and the newspaper compartment are made of galvanised steel, powder-coated in anthracite grey RAL 7016, the stand elements are made of weather-resistant stainless steel V2A, polished. The very high-quality workmanship and the well thought-out concept make this free-standing letter box our top seller, which is characterised by a rain drainage edge for optimum water protection, a throw-in flap with rubber lip, the solid interchangeable nameplate, a practical post holder and the very robust lock. This letterbox is easy to clean and robust.

Thanks to the design, self-assembly is uncomplicated.

- Free-standing letter box made of galvanised steel, powder-coated in anthracite grey RAL 7016 fine structure matt.
- The system is manufactured by Briefkasten Manufaktur. German quality production "Made in Germany".
- The letterbox complies with DIN/EN 13724. Insertion size (3.5 cm x 32.5 cm) for C4 landscape, large letters also fit in here without creasing.
- Insertion flap with sound-absorbing rubber lip for very quiet insertion of mail.
- The door can be opened from left to right.
- Incl. 2 keys with key number, changeable name plate under the flap and post holder per letterbox.
- Newspaper compartment with door and toggle lock, powder-coated in anthracite grey RAL 7016, white adhesive lettering "ZEITUNG". Dimensions: 355x165x100mm.
- Large capacity thanks to optional letterbox depth +50 mm = approx. 17 litres. Suitable for companies and households with very high mail volumes.
- Includes close-fitting rain cover for optimum weather protection.
- The stand elements are made of 42.4 mm V2A stainless steel 1.4301, polished for screw mounting or setting in concrete.

#### Important information:

The post is only protected from moisture and dirt when it is fully inserted and the flap is closed. Under certain extreme weather conditions, water can still get in (up to 1ccm according to DIN EN 13724). This is not a reason for complaint.
